CRUISERS PACT IN ROUGH WATER

Dawes Sends Long Draft of British Proposals

Ambassador Reveals Basis for Slash Far Away

Breakfast at White House Discusses Problem

WASHINGTON, Sept. 4. (Exclusive)—A long communication from Ambassador Dawes, carrying the latest British proposals for a tentative naval reduction agreement, was received at the State Department today. The communication was received at the State Department today. The communication was received at the State Department today.

The Dawes communication, which was received at the State Department today, was received at the State Department today. The communication was received at the State Department today.

TYROLANDS PLANE WHEN PILOT LOOPS OVERBOARD

CINCINNATI (O.) Sept. 4. (Exclusive)—Looping the loop 3000 feet in the air at a speed of 100 miles an hour—motor whirling with a deafening sound—the blue sky and the brown earth whirling about in a dizzy haze—thrills and more thrills!

"Hold tight," shouted the pilot, D. H. Young, a former American air ace, as he gave the ship more gas. The motor droned louder and louder. Then, glancing over the side of the plane, the passenger, Norman Curtice of Cincinnati, noticed a white speck hurtling toward the earth. It was a parachute. Turning to the pilot's seat, Curtice discovered that Young was missing. A broken safety belt was and Commander Train formed the naval contingent.

The Dawes communication came as somewhat of a surprise to American officials, as it had been anticipated that the British reaction to the latest American suggestions and tentative reduction figures would receive a more favorable reaction from Ramsey MacDonald, the British Premier. Officials refused to comment on whether the delay in reaching an accord on cruiser tonnage means that the present conversations with Great Britain are less likely to succeed.

American officials still are hopeful that an accord can be reached with Great Britain and today's breakfast conference represented the beginning of a new attempt to work out cruiser-parity figures that would be acceptable to both powers.

Seventeen Die in Powder Fire

BERGSCIA (Italy) Sept. 4. (Exclusive)—Seventeen persons, mostly women, were burned to death today in a fire in a powder plant at Castenedolo.

Twenty others were injured, some seriously.

CHINA'S LEAGUE POLICIES AIRED

Wu Says Nation Believes in World Society

GENEVA, Sept. 4. (Exclusive)—Dr. C. C. Wu, Chinese Minister to Washington, today declared China believes in the League of Nations and is loyal to it. He spoke before the Assembly session today.

Before the Kellogg pact came into force, Dr. Wu said, China had announced its intention to abide by the principles of the pact and had observed them in the recent Sino-Russian dispute in Manchuria. Dr. Wu praised Premier MacDonald's declaration yesterday for equal justice for the ancient peoples of the Orient as the finest expression by a responsible statesman since Woodrow Wilson voiced the aspirations of the weaker nations ten years ago.

Then, referring to Article XIX of the League covenant, which provides for revision of treaties which have become obsolete, Dr. Wu said the article is intended to deal with situations which if left unaltered might become a menace to international peace.

WIFE AND SELF SLAIN

NEW HAVEN (Mo.) Sept. 4. (Exclusive)—Albert Karlmer, 24 years of age, shot and killed his former wife, Lucille Karlmer, last night. They were married last November but separated soon afterward. Karlmer was a farmer.

COMPOSITION BY "MOZART" FOUND

Church Service Music Being Examined to Determine Authenticity

BADEN (Austria) Sept. 4. (Exclusive)—Discovery of an unknown "harmony" mass in B flat, thought to be by Mozart, has been reported by Choirmaster Bernard Neiger of the parish church.

The mass bears Mozart's autograph signature and is marked for soprano, alto, tenor, bass and string and brass instruments. It is being examined to see if it is genuine.

VATICAN CITY HAS POPULATION OF 523

VATICAN CITY, Sept. 4. (Exclusive)—This newest state in Europe has 523 citizens, according to a census list announced today by Gov. Serafini. This number includes Cardinals and was arrived at after several weeks of examining claims to citizenship.

The Governor gave one copy of the list to Pope Pius and another to the Italian Minister of Foreign Affairs to be presented to Premier Mussolini.

AMERICAN WIFE OF TURK IN RENO

Sidi Wirt Spreckels Chakir to File Divorce Suit

RENO, Sept. 4. (Exclusive)—For the supposed purpose of establishing a residence here preliminary to filing action for a divorce, Sidi Wirt Spreckels Chakir, wife of Suid Bey Chakir, Turkish Prince, is in Reno. It was revealed here today, and has been here since June 28. It is presumed that she will file an action for divorce on the 29th inst., as she has retained the law firm of Hawkins, Mayotte & Hawkins to represent her.

Princess Chakir, whom it was supposed generally had been divorced by the Turkish Prince some time ago, may bring the divorce action on grounds of desertion, it is said. She was married to Suid Bey Chakir in Constantinople June 30, 1923.

Yesterday Constantinople dispatches stated she had been awarded \$5000 damages against the Prince Chakir as the final outcome of the famous Turkish scandal libel suit in which Madame Chakir charged the Princess Chakir with misusing her name in connection with the divorce suit instituted by the Egyptian Princess against Suid Bey.

NEW YORK RUM FINES SOARING

Violators Gasp When New
Judge Gets to Town

Florida Jurist Says Justice
Has No Sliding Scale

One Law for All, His Motto;
\$500 for Home Brew

NEW YORK, Sept. 4. (Exclusive)—This city is undergoing its annual entertainment of dry federal judges from the South. It had looked like a quiet summer until Judge Ritter dropped in from Florida to give Judge Campbell of Brooklyn a vacation.

The white-haired jurist immediately let it be known he believed in inflicting the maximum punishment for convicted dry-law offenders. Today he sprung into action. The cases tried before Judge Ritter today were the common or cellar variety nuisance cases, the sort that ordinarily are settled by bargaining or survive into the discard. The gentlemen from Miami and points thereabouts had slapped a \$500 fine on a speakeasy man yesterday and consequently were greeted with respect by lawyers when he came down this morning.

GRIND BEGINS
The first case brought a verdict of not guilty. The second was a no-decision affair. The third was thrown out by Judge Ritter when the young federal prosecutor would not link the frightened defendant to a couple of poisonous-looking bottles of booze.

The fourth offender was a portly, red-faced gentleman who had been found with a great deal too much home brew in his house. Julius Waldron, the defendant, and Mrs. Julius Waldron explained at length that the liquids were for private consumption over the Jewish holidays.

Mr. Waldron was convicted of possession and Judge Ritter slapped the maximum \$500 fine on him and called it a day.

The Florida judge appeared surprised when asked after court if he had not been a bit severe.

"Maximum sentences were made to be applied," he remarked. "To me a speakeasy is just a saloon. Saloons are against the law. The duty of the bench is to administer the law and when properly administered the violators are properly punished."

THREAT ALL ALIKE
"No judge has a right to administer light sentences just because of public opinion," he continued. "There should be no sliding scale of justice. The prohibition laws should be enforced and sentences meted out alike in every section of the country. It would be interesting, I believe, to find out the exact percentage of convictions of liquor cases in New York."

Judge Ritter believes "the people are coming around to a point where they will have real respect for the prohibition law."

GUN BLAST KILLS ONE
CONSTANZA (Romania) Sept. 4. (AP)—A big gun on the Romanian cruiser Mares burst during target practice today. One sailor was killed and five injured.

Soviet to Spend \$40,000,000
on Model Town

MIRNY NOVOGOROD (U.S.S.R.) Sept. 4. (AP)—American engineering skill, ingenuity and energy have been called into play by Soviet Russia in the building of a great new model industrial city just north of here, between the Volga and the Oka rivers.

In competition with engineers of six European countries, the Austin Company of Cleveland, O., has been awarded a contract by the Soviet government to construct a city on modern American lines.

It may be named Austingrad as a compliment to its American builders. The principal product of the center will be Ford automobiles and motor trucks; ultimately 500,000 automobiles annually will be produced. Involving the expenditure of \$40,000,000 by the Russian government, this is the largest contract of its history given by the Soviet authorities since they gained power twelve years ago and the new city will contain the largest automobile plant in Europe.

AMERICANS WILL BUILD RUSS CITY

Ohio Engineers Awarded
Huge Contract

Largest Auto Plant in Europe
to be Part of Plan

Soviet to Spend \$40,000,000
on Model Town

MIRNY NOVOGOROD (U.S.S.R.) Sept. 4. (AP)—American engineering skill, ingenuity and energy have been called into play by Soviet Russia in the building of a great new model industrial city just north of here, between the Volga and the Oka rivers.

In competition with engineers of six European countries, the Austin Company of Cleveland, O., has been awarded a contract by the Soviet government to construct a city on modern American lines.

It may be named Austingrad as a compliment to its American builders. The principal product of the center will be Ford automobiles and motor trucks; ultimately 500,000 automobiles annually will be produced. Involving the expenditure of \$40,000,000 by the Russian government, this is the largest contract of its history given by the Soviet authorities since they gained power twelve years ago and the new city will contain the largest automobile plant in Europe.

PANAMA PACIFIC LINE PRESENTS

ANOTHER ALL-ELECTRIC LINER

S. S. PENNSYLVANIA

LARGEST AMERICAN-BUILT

CALIFORNIA
-NEW YORK

via Panama Canal and Havana

MAIDEN VOYAGE

NOVEMBER 11

A great ocean liner, the largest, most modern and luxurious ever built under the American flag, soon takes her place in the new fleet of the Panama Pacific Line.

Like her sister ships, California and Virginia—new in service—the new Pennsylvania is electrically driven, electrically operated, vibrationless. She is the largest electrically propelled commercial vessel in the world. In designing and building this \$20,000,000 liner the comfort of guests and details of appointments were of major importance.

Every stateroom is an outside room, many with private baths, cabins on suite with private verandahs. Spacious public rooms bespeak the dignity and refinement of a colonial mansion. In the dining saloon is a cuisine perfectly executed and executed.

Built-in outdoor swimming pools, completely equipped gymnasium, deck, usually large and inviting, groups for 140 cars where you check your automobile as baggage. First cabin and tourist cabin accommodations.

A fortnightly service to and from New York is offered by this great fleet of Panama Pacific Line thru the Panama Canal in daylight (overnight visit at Balboa) and a stop-over at Havana, gay pleasure city of Old World charm.

MEXICO WATER PARLEY SILENT

Deadlock Still Holds as Third Week Passes

Colorado's Flood Menace Remains Vital Issue

Offer of Concessions Made to United States

MEXICO CITY, Sept. 4. (Exclusive)—The International Water Commission has completed its third week of its sessions, which the American delegates declared when the meetings convened August 20 "should not last longer than eight or ten days." During which period a judicious allotment and an equitable distribution of the waters of the Colorado River should be obtained to the satisfaction of the Boulder Dam compact states and to that of Mexico. Any appreciable results that have been obtained have remained a closely guarded secret of the delegations of both countries, with the conference chambers at the Foreign Office closed to all inquiries made as to progress of results obtained.

LITTLE CHANGE
There seems to be little perceptible change in the deadlock situation as reported in dispatches from Mexico City to The Times published August 28, when it was declared that the American members of the commission have not yet made the final closing date of the meetings. While a sudden change of the reported deadlock may materialize soon and an official announcement of progress made in this technically intricate problem is hoped for, it appears now that the American and Mexican delegates are at variance on the subject matter to be included in the present deliberations.

It is understood that the Mexican members of the commission desire that the case of the Colorado only be discussed at these meetings and that discussion of the Colorado River Compact be left for a later date. The American delegates are understood to be desirous that all rivers be included in the present agenda.

It is understood that the Mexican delegation still is making the question of flood menace from the Colorado their main point of insistence and it is asserted that there exists an inclination on the part of Mexico to surrender previously claimed water rights if the United States agrees to authorize flood-control construction that will extend beyond the limits of the United States. It is asserted that not only would such constructions protect Mexico, but such works built in Mexico would likewise diminish, if not prevent, future flood damage on the American side of the border. It is likewise asserted by Mexico that both nations are entitled to an equal share of the water of all frontier rivers.

Mexico is understood to contend that between \$5,000,000 to \$10,000,000 of the \$25,000,000 authorized by Congress to be spent for flood control of the Colorado should be expended in Mexico. As far back as 1907 levee construction was started in what is known as Pescadero Basin, located about forty miles south of the border. In Lower California in an effort to check the fast-like spread of the main channel of the Colorado, which now empties into the basin over a thirty-mile stretch, a vast labyrinth of hundreds of small and large streams that have broken through these dikes and created an impassable, untraversable water-logged region. Mexico maintains that proper flood control will cause the Colorado to resume its normal channel through this break, making it both navigable and productive to the region which is now a wooded district less traversable than the Florida Everglades. Since 1907 and progressively since then almost yearly levees have been built in Pescadero basin in an effort to prevent breaking up of the river which, because of an accumulation of silt that has raised the ground to such proportions, the water now empties into a channelless area that slopes downward toward the undersea level of Imperial Valley.

POINT TO PRECEDENT
It is pointed out here that there is nothing new in asking the United States to expend money for anti-flood purposes in Mexico for in 1911 and 1912 the United States government actually spent \$1,100,000 for the construction of levees in this territory. Private American interests have spent \$2,000,000 for the same purpose and Mexico \$700,000. In connecting its point that Mexico is entitled to an equal share of the waters of the river, which arguments are disputed by some American interests closely following the Boulder Dam project, reference is made to the international treaties of February 1884, December 1884 and November 1884 in which it is asserted that the Colorado and Rio Grande are accepted as international rivers, which the United States and Mexico are to divide the waters between both countries and that neither shall, without the consent of the other, construct any work that may impede or interrupt in whole or in part the rights of navigation.

PROMISE STATEMENT
It is understood that Dr. Elwood Mead, head of the American section of the commission, proposes to issue a statement within the next few days but that it will not be an announcement of the closely guarded secrets of the recent deliberations but in the nature of an "understandable background" explanation. Such statements may be eventually be issued dealing with the negotiations proper, it is understood, will be made public by both governments at Washington and Mexico City.

Husband Kills Rival and Wife

EL PASO, Sept. 4. (AP)—Mrs. Irene Walt, 36 years of age, and Gordon Rose were slain last night in the Walt home, and the woman's husband, H. F. Walt, was held by police on his admission that he beat them to death with an ax. Both were killed as they slept. Walt is a member of the medical detachment at Fort Bliss and Rose was a soldier at Fort Bliss.

AIR DEATH CALL CHEATED

Mechanic Miller Tells How Lightning Struck Plane Killing Maj. Wood

How the thunderbolt which hurled Maj. John Wood to death also flung his mechanic unconscious but safe in a 13,000-foot parachute drop from their river airplane was told vividly last night by Ward H. Miller, last-instant companion of the ill-fated nonstop air racer. Miller was brought back from Needles to Los Angeles last night in a Lockheed plane piloted by Harold Bromley. Bruised and with a lacerated left arm, the youthful mechanic, who has ten solo hours to his credit, told his story at the home of Lieut. Herbert J. Fahy, 227 North Vandome street.

"We were two hours out from I found myself lying on the rough sandy ground of the desert, surrounded by chaparral and rocks. I was not hurt except for bruises." **WALKS TWENTY MILES**
"I circled for about a mile, looking for traces of Maj. Wood or the ship. I didn't see either, but I did find a wing tip, an aileron, a rib, and a piece of the stabilizer. I met a couple and killed it with a rock. I dug for water, but couldn't strike any. Then I started to walk toward Needles."

After walking twenty miles, I reached Flute Springs, an abandoned prospectors' camp. There was no shelter and I broke into a sweat and dropped down, falling asleep. I slept twelve hours, waking up Tuesday morning.

"I was alone in the desert, miles farther. Two cars passed me on the trail, refusing to stop and give me a lift. I guess I looked pretty tough, and I was. The third driver along stopped and heard my story, and took me to Needles, where I notified the Lockheed company. Maj. Wood's fate, as soon as Miller notified the company, he wired assurances to Maj. Wood's family in Washington, D. C. for whom he was administering a lot. Miller had expected to go on to Washington from Cleveland and visit Miss Letterson."

CIGARETTE USE BOOSTED BY WOMEN

Milady's Nicotine Demand Causes United States to Lead World Consumption

WASHINGTON, Sept. 4. (AP)—Women smokers added materially in bringing the per capita consumption of cigarettes in the United States from 820 in 1927 to 856 for last year.

The Commerce Department announced today that 102,765,000,000 cigarettes were consumed in the United States last year, which represented a great increase over the 97,267,614,719 cigarettes consumed in 1927.

Cigarette smoking in this country has increased steadily since the war and has more than doubled in the last decade. In 1917 the number smoked was 37,130,858,197, while the figure for 1928 was 45,228,708,469. Since then there has been a steady increase in the consumption of cigarettes.

Smoking of cigars has declined from 5,111,114,300 for 1917 to 4,036,714,162 for last year. Cuba was said to be the largest per capita consumer of cigarettes, 1907 figures reported to the Commerce Department showing an average of 1433 cigarettes smoked in 1927.

Official estimates received by the Commerce Department placed Great Britain next to this country in volume of cigarette smoking last year. In 1927 the British consumed 32,000,000,000, and Japan fourth with 28,000,000,000.

ARMSTRONG PRAISED AS JOURNALIST

Washington Correspondent for "The Times" Planning Motor Vacation Abroad.

WASHINGTON, Sept. 4. (Exclusive)—Frederic William Armstrong, noted political writer, whose articles are published in some 400 newspapers throughout the country, writes in today's Washington Star of Robert B. Armstrong, Washington correspondent of the Los Angeles Times, as follows:

"One of Washington's veteran newspaper men, Robert B. Armstrong, has been invited to the first real vacation he's allowed himself in twenty years. Accompanied by his wife and son, Bob, he is about to go to Europe for a motor holiday. He represents the influential Los Angeles Times here now, but for years was chief correspondent of the Chicago Daily News. He left the News to become assistant secretary of the Treasury in the first Roosevelt administration. Armstrong has long been one of the journalistic powers in national politics. He had charge of Warren G. Harding's pre-convention publicity in 1920, functioned in a similar capacity in 1924 and was one of Herbert Hoover's close friends and right-hand newspaper men in 1928. President Coolidge gave Bob credit for suggesting the appointment of Curtis D. Wilbur as Secretary of the Navy in 1924."

BRITAIN TELLS CHINA POLICY

London Foreign Office Reveals Correspondence Over Extraterritoriality Question

LONDON, Sept. 4. (AP)—Great Britain's policy toward extraterritoriality in China was made known officially today with the publication by the Foreign Office of the diplomatic note delivered in Nanking August 12 in which it was stated the time is not ripe for the Chinese government to assume full control of foreigners in the country.

The note, which is similar to one sent to China by the United States and other powers, declines to agree to China's requested abolition of the system of extraterritoriality, but expresses the willingness to examine in collaboration with the Chinese government the whole problem with a view to ascertaining what further modifications in the system are possible.

The note points out that fundamental differences between the Chinese and western legal principles originally were responsible for the system which was established. While noting with appreciation the progress...

SENATE MOVES IN NOMINATIONS

Farm Board and Diplomats' Names Referred

Agricultural Committee to Quiz Appointees

Opposition May Center on Chairman Legge

WASHINGTON, Sept. 4. (AP)—The nominations of the eight members of the Farm Board and of three new diplomatic officers were submitted to the Senate today at its first business session after the summer recess and immediately referred to committees for preliminary consideration.

Rumors of opposition to members of the Farm Board, which has been functioning since July, were heard today. No details of opposition have been sounded and the Agriculture Committee will meet Friday to look over the list of nominees.

DIPLOMATS NAMED
Mr. Hoover submitted the names of John W. Garrett of Baltimore to be Ambassador to Italy; Garret John Diekmann of Michigan to be Minister to the Netherlands and of George L. Bismarck of Louisiana to be Minister to Venezuela. The Foreign Relations Committee will consider these nominees at its regular meeting next week and their confirmation is expected.

None of the judicial appointments was forwarded and none is expected before next week. However, there is every indication that the nomination of Albert L. Watson of Sonoma to be judge of the Middle District of Pennsylvania will be resubmitted. Watson's nomination was held up by the hearing of those opposing him at the last session until it was too late to get a vote in the Senate.

Because of several requests Chairman McHenry of the Agriculture Committee said it was likely that the Farm Board members would be asked by the committee to appear for questioning, probably next week. Senators Brookhart, Iowa, and Nye, North Dakota, Republicans, have asked for hearings. The Senators are concerned over the program for taking care of the wheat crop.

If any opposition develops to the board members, it is expected to center on Alexander Legge of Chicago, the chairman and business representative, and on Samuel R. McKelvie of Nebraska, the wheat representative. McKelvie is a political foe of Senator Norris, Republican, Nebraska, but the Nebraska has said he would not make objection on personal grounds to McKelvie.

TERMS SPECIFIED
Mr. Hoover nominated Legge and Charles C. Tague of California to one-year terms; McKelvie and William F. Schilling of Minnesota to two-year terms; C. B. Demarest of Missouri, three years; Charles S. Wilson, New York, four years; James C. Stone, Kentucky, five years; and Carl Williams, Oklahoma, six years.

The President also transmitted the nomination of Albert C. Williams of Texas for reappointment to the Federal Farm Loan Board.

COL. ROOSEVELT REACHES COAST

(Continued from First Page)

Every member of our party except one was stricken at some time by the fever," said Col. Roosevelt. "I was sick for a time myself, but have fully recovered. Even the natives contracted the fever and three of them had to be sent back to civilization, as they were too ill to carry on."

The Roosevelt left tonight for Chicago, from which place they will go to New York and Washington after completion of the work of the field expedition. Mrs. Roosevelt met the colonel in Saigon, and crossed the Pacific with him. Roosevelt said he has been out of touch with civilization too long to comment on politics or the policies he will adopt in his new Porto Rican post.

"It is deeply sensible of the importance of the work to be done in Porto Rico," he said, "and I am appreciative of President Hoover's confidence in my abilities in naming me Governor-General."

Col. Roosevelt said he will leave for his new post as soon as he can conclude the work of the expedition and qualify for the job.

EXCESSIVE HEAT PERILS ALL EAST

(Continued from First Page)

crop losses due to the drought spell in years. This section experienced the hottest weather of the season Tuesday, but the mercury dropped some Wednesday.

Springfield, Mass., reported an unofficial temperature of 90 deg. on Wednesday, and schools, which opened Tuesday, were closed. Some parts of New England found relief from the heat in a high-pressure area which moved down from Canada.

The mercury climbed to a near record at 94 deg. in New York City yesterday afternoon. The suffering was not so intense as in other hot spells owing to a low humidity. It was the hottest September 4 in the metropolis since 1873.

Local rains brought relief to some sections of the Middle West, where the average temperature has been above 90 deg.

The Southeast and parts of the Northwest, including Wisconsin, were benefited by showers. While the eastern States were in dire need of rainfall, a cloudburst was reported in Colorado, and more fell Tuesday night in Glacier Park in Montana.

PASADENA NOT FOR VALLEY ADVERTISING
PASADENA, Sept. 4.—The Pasadena Chamber of Commerce definitely declined today not to enter the San Gabriel Valley Development Association's \$50,000 co-operative advertising program.

FIRST SAN JUAN DAMAGES ASKED

Insured Passenger Sues for \$25,250

Marine Engineer Defends Crew of Lost Ship

Third Mate Blames Tank Vessel for Crash

BY FLOYD J. HEALEY

"Times" Staff Correspondent
SAN FRANCISCO, Sept. 4. (Exclusive)—The first personal damage suit arising from the sinking of the passenger liner San Juan and the loss of twenty-seven lives was filed today in Federal court here. The suit was filed by the estate of a passenger who was killed.

The damage suit, which asks \$25,250, was filed for Henry Hogue, a passenger on the San Juan, who was thought to have been drowned. But subsequent investigation brought into port and under way today. The suit was filed by the estate of a passenger who was killed.

CHIEF FIGHTS OPENING OF OLD INDIAN MOUNDS

LA SALLE (Ill.) Sept. 4. (P)—The University of Illinois anthropologists, excavating mounds in the old Indian city south of Ulica in their search for pottery and other relics, have been confronted with the protest of a Winnebago Indian chief.
Chief Clement Bear of the Winnebago, with his squaw, went to the mounds of the Indian city which was sacked by tribes of Potawatomi and Iroquois Indians in 1800.
Chief Clement Bear decided that a cruise, denied from the stand before Inspector Bulger, Turner and Dolan, that crew members of the San Juan had been negligent in caring for passengers.
Reports had reached the ears of the Federal investigators that Wade had criticized the crew.
"The crew responded nobly, but had no time to do anything to save passengers," Wade testified.
Wade's testimony, however, disagreed with that previously given with respect to the sounding of fog sirens. He declared no fog white-tins were blown.
A double-holler explosion hurled him to the surface of the ocean after he had gone down with the sinking San Juan, he asserted. Asked if the explosion could not have been caused by the concussion of escaping air, Wade said it might have been, but he believed it to have been caused by the blowing up of the boiler.
Robert Papenfuss, third mate of the San Juan, who was on the bridge alone until a few minutes before the fatal crash, said the Dodd turned in on the San Juan. Previous testimony from officers of the tanker had the San Juan turning into the Dodd's course. He blew a passing signal, Papenfuss testified, because when he sighted the Dodd it appeared they would pass safely. He thought they would pass too closely, however, he testified, so

MASON ARRESTS IN ITALY LISTED

Nitti Vouches for Account of Their Internment
Grand Master Said to Have Been Held Captive
Fascist Policy Blamed for Seizure of Group
(Copyright, 1929, by the Chicago Tribune)
LONDON, Sept. 4. (Exclusive)—That Sig. Dimizio Terrigliani, grand master of the Italian Free Masons; Sig. Giuseppe Macchi, vice grand master of the Masons, as well as other leading figures in the Masonry of Italy, have been secretly arrested and interned by the Fascist government, was vouched for by Francesco Nitti, who recently escaped from the prison, in a letter to the Manchester Guardian today.
The Manchester paper printed the news of the arrests and internment of the Masonic leaders a month ago and later printed emphatic denials by the Italian government.
"Your correspondent is correct," writes Sig. Nitti to the Guardian. "Sig. Terrigliani was interned on the island of Lipari from May, 1927, until September, 1928. He now lives under police surveillance, near Vi-terbo. Sig. Macchi was interned on the island of Ponza last May and is still there."
"Francesco Leti, son of Giuseppe Leti, Masonic leader who fled to France, was arrested and taken to the island of Lipari in May, 1928, and was still there on July 27 when I escaped from that awful place. Sig. Leti never took an interest in politics. He is merely imprisoned according to the Fascist method of taking hostages from among the relatives of political opponents who emigrate abroad."

PARIS LEG REVOLT BARED

Despite Mandates of Fashion Women Shun Stockings During Season of Excessive Heat
(Copyright, 1929, by New York Times)
PARIS, Sept. 4. (Exclusive)—Coinciding with the return to the capital of thousands who have been spending the holidays at seaside places, the present heat wave has resulted in the revival of the barelegged mode for women which had its vogue a few years ago.
Not only in the Latin Quarter, where transparent stockings afforded an excuse for the omission of hose altogether, but in the downtown districts, the Rue de la Paix and the fashionable Champs Elysees, one out of every four or five women, on close inspection, now proves to be stockingless.
Coming upon the irrevocable pronouncement by Parisian style inventors that next season's dresses

HUGE SEAPLANE TAKES UP GROUP

Hundred-Passenger Craft Has Noted Guests
(Copyright, 1929, by the Chicago Tribune)
BERLIN, Sept. 4. (Exclusive)—For the first time since the hundred-passenger seaplane DO-X took to the water and the air, the Dornier officials today invited a group to partake in a trial flight.
The guests included Ambassador Jacob G. Schurman; the German Ambassador to Washington; Frederick Von Prittwitz und Gaffron; the Spanish and Japanese Ambassadors; and three American naval officers.

NEW MALTED MILK
Richer ~ Creamier ~ Tastier
at Green Lantern Fountains

YOU AND I have been getting as fussy about our malted milk as we are (or used to be) about our coffee.
Too weak. Too rich. Too sweet. Not sweet enough. Ice cream in lumps. Too much flavoring. Not enough this, too much that...
"It's getting so you half expect to be disappointed every time you order one..." "Of course *What's-their-name* make a pretty fair malted milk. But who wants to go that far? There ought to be some place near..."
"Yes, and they ought to have a *better* malted milk, too. Why doesn't someone find a new recipe?" Etc. . . Etc. . .
TODAY, Step over to the Green Lantern Fountain and try the NEW Green Lantern Malted Milk!
At last a brand new recipe for this favorite refreshment!
A big malted milk to satisfy the "crankiest" malted milk drinker. Creamier. Tastier. Pure ingredients thoroughly mixed... absolutely even in consistency. More and better flavors...
But it's foolish to try to describe this new

product of the Green Lantern dietary kitchens. Let your own taste describe it.
No, you can't find the NEW MALTED MILK at any other place. Only at the GREEN LANTERN FOUNTAINS. But, lucky for you, there are dozens of them. Always one handy when the thirst comes on you. Or lunchtime hunger.
Everyone knows these convenient independent drug store fountains for their inviting cleanliness, their personal effort to please, their fine foods and drinks. Now they will probably be identified also as "the places to get the only real malted milk in town."
Try it, fellow malted-milk drinkers! Any Green Lantern Fountain... it makes no difference which. All alike. All fine.
By the way, did you follow our other suggestion to try that fine Green Lantern Ice Cream? . . . Surprised to find a drug store serving such delicious ice cream, weren't you? It comes in packages, too... pints and quarts, also in bulk. All the same high quality... another Green Lantern innovation.

Special This Week
To Introduce the New Green Lantern MALTED MILK
The green Lantern Malted Milk is regularly priced at 20¢. During Introductory Week it will be but 10¢ at any Green Lantern Fountain if you use the coupon. The coupon is good only September 3rd to September 8th inclusive.

NEW WELLS AID WATER SUPPLY

Dear Valley Mutual Concern
Announces Completion

Tests Indicate from 500 to
400 More Inches Added

Acute Situation Expected to
be Greatly Relieved

REDLANDS, Sept. 4.—Completion of two big wells by the Dear Valley Mutual Water Company for use in the Dear Valley Mutual Water Company systems of the Redlands district is assurance that an additional 300 to 400 inches of water will be available within a few days, according to J. J. Prendergast, president of the Dear Valley Mutual Water Company. "We have not given the wells a final test as to the quality of water," said Mr. Prendergast today. "They have been drawn upon for periods of about two hours each and give promise of fulfilling all expectations."

The Washburn well, as it is designated at present, is located north of East Lugonia avenue on Washburn avenue. It is equipped with a Layne & Bowler direct-connected pump, capable, according to the lift and location, of 250 miners' inches. The company is confident that the well will show a development of 180 inches. The well is 325 feet deep with twenty-six-inch casing.

The lower well, as it is known at present, is a mile west of the Washburn well and is also equipped with a Layne & Bowler pump. It is 175 feet deep and its log shows good water-bearing gravel throughout most of its length.

A number of wells have been developed in the neighborhood, practically all proving heavy water producers. The William Howard well, near the Washburn well of the Dear Valley Company, is delivering 135 inches regularly. Two other wells near the lower pump have also proved very valuable.

With this additional water the acute situation of low water tables is expected to be greatly relieved.

The two new wells are to be pumped into the Lugonia water system, according to an agreement made at the beginning of the season. Distribution of this plan will be more economical, it is estimated.

Courthouse to Have Branch on Santa Maria Site

SANTA BARBARA, Sept. 4.—Establishment of a branch courthouse in Santa Maria became a certainty yesterday when Santa Barbara County Supervisors signed a two-year lease for a section of the new "El Estero" building in that city, at a monthly rental of \$200, the lease to become effective November 1 and remain in force until October 31, 1930.

The section leased will be used to house branches of county offices and eventually, it was said, every county office will have a branch in Santa Maria.

On November 1, next, branch offices in Santa Maria will be established by the Horticultural Commission, health department, welfare board and traffic department. Other offices will be added as necessary for such action arises, it was said. C. L. Frederick, chairman of the Board of Supervisors, also will have an office in the branch Courthouse.

TAXES RAISED TWO CENTS FOR POMONA

POMONA, Sept. 4.—Setting the municipal tax rate at \$2.17 per \$100 of assessed valuation for the fiscal year 1929-30, the City Council today increased the rate 2 cents over last year's figure to make an increased quota for the park department, planning commission and fire protection.

Need of a new eight-inch fire-protection water main in the industrial section of the city, attention to a contemplated new business concern was the principal cause of the boosted tax rate.

VENTURA WHITTLES DOWN CITY TAX RATE

VENTURA, Sept. 4.—The City Council last night set the tax rate for the year 1929-30 at \$1.85 per \$100 valuation. This represents a decrease of 13 cents over last year's rate.

Considerable "whittling" was necessary to make the rate lower and yet assure sufficient funds to carry on necessary improvements.

RED-LETTER DAY FOR DUO

Watson Tract Residents, All Two of Them, Constitute Voters and All Necessary Officers, for Election

VENTURA, Sept. 4.—On October 15 each inhabitant of the Watson tract will have perhaps more absolute power than they ever before enjoyed.

The City Council last night set that date for the election by which the tract is to be annexed to the city. Mary E. Watson, the owner, and her employee on that day will constitute an election board and all necessary officers.

At 7 in the morning it will become their duty to open the polls so that all voters are properly arranged and then, while one of them sits by to insure order, the other can slip out, run around the building, walk unconcerned in the front way and cast a vote.

The voting having been dispensed with, the election board can go into action, count the votes, both of them, examine them to see that

BATHING SUIT MUST BE BEAUT

It Can't Be Wrong, For Mother's Sung Kids Girl Along

CHATEAUX, Sept. 4.—

Miss Elise du Plaisir, 18 years of age, is going to be one of the entries in the bathing beauty contest at Lakeside Park, near Chateaux Reservoir, next Sunday afternoon.

"I have just bought my new bathing suit," she said today. "It is a very red, with little black diamonds dotted all over it. When I tried it on and showed it to mother today, she broke into song. This is what she scribbled: 'Mother, may I go out to swim? The new bathing suit? May I wear it on your lovely lake? And for her sake, stay in the lake.'"

Miss du Plaisir has won two previous beauty contests, and four or five swimming-pool races.

Last Rites for Henry Ramel of Pasadena Friday

PASADENA, Sept. 4.—Funeral services for Henry Ramel, assistant postmaster in this city for the last twenty-three years, who died last night at his home, 1915 North 21st avenue, will be held Friday at 3 p.m. at the Masonic Temple.

Additional arrangements will be announced by Turner & Stevens company.

Mr. Ramel was 73 years of age and died as the result of a stroke which followed a long illness. He was a native of Greenville, Ill., and came to this city in 1880. In early life he worked as an engineer in laying out railroads in Utah and Colorado.

For ten years after moving here he served as deputy city engineer, in which capacity he laid out many streets in the business district.

He was appointed assistant postmaster in 1906 during the tenure of Postmaster J. W. Wood.

During his twenty-three years of service, it is asserted he did not receive a single complaint, and he was a popular figure in the city until last April, when he had a slight stroke.

Although eligible for retirement four years ago, he asked to be reappointed and was continued in office on recommendation of Postmaster W. F. Knight.

Mr. Ramel was known to local business as Mr. Ramel, because of the office he held with the famous old American Marching Club which campaigned for McKinley.

He was a past master of Pasadena Lodge No. 572, P. M. and A. M., and was a patron of the Pasadena Orpheum of the Eastern Star.

He leaves a widow, Mrs. Harriet Ramel, whom he married shortly after coming to California.

BAIL SET HIGH FOR ASSERTED BANDITS

VENTURA, Sept. 4.—Clyde E. Hodges, 38 years of age, and Edward Woolley, 21, charged with holding up the Club Cafe Monday night, were arraigned on the felony complaint signed by Chief of Police Clarence Mason in Judge Dimmock's court today, and \$5000 bail set for each defendant.

Thursday was the date set for the examination of the two men, who admitted they held up Gladys Deane, before 123 from the cash register of A. E. Frederick, proprietor of the cafe.

The bandits escaped at the time, but their minutes later were apprehended by city officials near Bedford.

NEW VALLEY POLICE COMMANDER ON JOB

VAN NUYS, Sept. 4.—Capt. C. A. Hodgson, new commander of the San Fernando Valley branch of the Los Angeles police force, has arrived here at headquarters and assumed duty.

Capt. P. E. Kiersey, who retired recently after serving in the police department for twenty years, Capt. Hodgson, about two years ago, was stationed here. He is known to many Van Nuys residents, and in other valley sections. Since leaving here, Capt. Hodgson has been in charge of the property bureau at central headquarters, Los Angeles.

Miss Coulter is planning immediate additions and improvements to the hospital, including a new room for major surgery, an additional ambulance entrance and sun room entrance.

CHAIRMAN NAMED TO RAISE MASONIC FUND

SANTA ANA, Sept. 4.—George S. Smith, Santa Ana business man and Mason, has accepted the general chairmanship of the recently announced \$500,000 financial campaign which will provide funds for the construction of a new Masonic temple at Fifth and Syracuse streets.

Appointment of Smith and his acceptance was announced this morning by W. M. McInnis, president of the Santa Ana Masonic Temple Association, who also made known the personnel of a campaign executive committee of twenty-nine, which will have complete charge of organizing the campaign.

The personnel of the campaign committee includes all the officers of the fund-raising effort.

SANTA YNEZ SCENIC ROAD ALTERATION

"Rim of the World" Drive Rival to be Continued to Matilija Canyon

SANTA BARBARA, Sept. 4.—Instead of stopping at Rincon Creek in Carpinteria, as originally proposed, the scenic highway announced for the summit of Santa Ynez Mountain range is to be carried to Lyons Springs in Matilija Canyon. Ventura county, covering a distance from San Marcos Pass of some forty-four miles.

Announcement to this effect was made today by E. A. Nash, Ventura county supervisor, who declared he had taken to the master of a forestry survey for the road with district forest officials in San Francisco and had assurance that a crew of government engineers will be assigned to the survey work.

Superintendent Stanwood is so enthusiastic over the proposed extension that he will seek to land county aid in constructing that part of the road which will lie within Santa Barbara county.

Wilderness interest was aroused in Santa Barbara over the project among good roads leaders, as it was pointed out, such a road would not only be Santa Barbara directly to the south, but also would give the community scenic highway undreamed of by the famous "Rim of the World" drive in the San Bernardino Mountains.

"Completion of the road as a public motorway," said Superintendent Stanwood, "will prove invaluable to all parts of the county."

One Dead Four Hurt, in Santa Barbara Crash

SANTA BARBARA, Sept. 4.—Michael Daneris, 50 years of age, of 1809 Valley street, San Francisco, died yesterday in a hospital from injuries received in a crash late Sunday night when the car he was driving collided with an automobile driven by Keith Johnson of San Ysidro Ranch, Mendocino, at State and Arrellano streets.

The Charles T. Holland funeral home where an inquest will be held.

Daneris, who suffered a fractured spine, died without regaining consciousness. He was purchasing agent for a wholesale fruit exchange and was a well-known figure in the city.

He leaves a widow, Mrs. Harriet Daneris, and three children: Charles, 18, and Geraldine, 11, all of whom are recovering in the hospital. The result of injuries received in the crash.

Members of the police traffic department were last night conducting an investigation in the crash. The car was found to be a 1928 model and no arrests were made in connection with the accident.

Officers with cars were exceeding the speed limit at the time of the crash.

BUILDERS CONDEMN WOODEN BUILDINGS

ANAHEIM, Sept. 4.—Condemnation of the Santa Ana School Board for its plan to construct frame buildings for the county seat's school system was voiced in a resolution adopted here last evening by the Santa Ana Board of Education.

The resolution calls attention to the fact that Santa Ana voters recently approved \$450,000 in bonds for the extension of its classroom facilities. This money now is to be spent, the exchange declares, for buildings that will constitute fire traps for hundreds of children.

The exchange heard talks by George Shelby of Los Angeles on "The Palatial Situation" and by H. C. Westover of Santa Ana, the exchange attorney, on "The New Contractor's License Law."

FATE AGAIN UNITS WAR NURSES IN DUTY

INGLEWOOD, Sept. 4.—It's a far cry from Base Hospital '28, Bordeaux, France, to Inglewood, but the skin of fate has brought once again into close association here two nurses who faithfully served their country there during the World War.

Miss Elsie Coulter, who recently acquired the Inglewood Hospital, and who served at the base hospital mentioned above, will have associated with her Miss Bella Young of Denver, who was a surgical supervisor in that hospital.

Miss Coulter is planning immediate additions and improvements to the hospital, including a new room for major surgery, an additional ambulance entrance and sun room entrance.

TRIPLE DEFENSE IN MURDER

Testimony Begins in Trial of Allen Slater and Albert Nava, Charged With Death of Walter Kirk

SANTA ANA, Sept. 4.—Taking of testimony in the trial of Allen Slater and Albert Nava, charged with the murder of Walter Kirk, began at 2:15 p.m. today in the court of Judge E. J. Marks. The first witness was Gordon Chandler of East San Gabriel, a motorist who testified to having seen the encounter between Slater and Nava on the one hand, with Kirk, their alleged victim, on the other.

A three-sided defense will be made, today announced not only that Nava and Slater, Long Beach youths, it was disclosed today. The triple defense will be based on the proposition of excusable homicide, of justifiable homicide or self-defense, and of an intervening cause.

Former Dist. Atty. A. P. Nelson, chief counsel for Nava, whose right leg is said to have dealt the blow that led to Kirk's death in a road-

TOKIO FLIGHT PLANS RUSHED

Bromley Undeterred by Wood's Fate

Intrepid Flyer and Japanese Pilot

Man who failed in first attempt to be first to cross Pacific in one hop consults with Jenuku Asama, familiar with airports of native land, who warns that within two months weather conditions will be hazardous in Japan.

PASADENA, Sept. 4.—Despite the tragic death of his friend, Maj. John Wood, nonstop Cleveland flyer, Lieut. Harold Bromley, who is reported to be in Japan, is preparing for his nonstop flight from Tacoma, Wash., to Tokyo, Japan.

Bromley, who failed in his first attempt to take off on his 4000-mile flight across the Pacific Ocean when he was blinded by gasoline spray from the overflow pipe, is a guest at the Hotel Comstock, where the Lockheed low-wing monoplane is being repaired at the Burbank factory.

A few hours after he registered at the hotel, he was notified that the plane was missing and immediately borrowed a plane to aid in the search. Flying through a dangerous storm area in the Arizona desert, he was forced to land. He has been among the first to locate an object a mile below him, which others later discovered to be his fellow-pilot's plane.

Upon his arrival here, Bromley held a short conference with Jenuku Asama, experienced Japanese pilot, who is proprietor of a local flying school. Asama, who is a local resident, is familiar with the Tokyo landing field and was informed that the field is covered with close-cropped grass and is not suitable for a landing.

The man, who hopes to be the first to pilot an airplane across the Pacific in one hop, declined to set any definite date for his second trial, asserting that it will depend upon the speed with which repairs are made to the plane.

Bromley revealed that he has raised practically all the money for his project.

He is not enough to raise money for business purposes, but if you want a real job, try to raise money for a transoceanic hop, he said.

The plane is supervised every detail of the construction of his ship. To guard against a repetition of the accident which cost him his first chance to win the world fame, the gasoline vents have been piped to a point below the bottom of the fuselage.

The plane will be equipped with seven gasoline tanks, distributed inside the wings and fuselage. Each tank is independent of all the others and may be shut off or turned on from the pilot's seat.

Bromley, flying solo, will be his own navigator and radio operator. He will use a new method of navigation, recently devised by a Japanese scientist. The radio sending key has been fastened at one side of his bucket seat, so he can keep his hands on the controls.

In order to guard against going to sleep during his forty to fifty-hour hop, he asserted that he will eat almost nothing. "I may chew on some dried chicken bones, but I'm not going to gorge myself, as that might make me drowsy," he announced. A rubber boat and parachute will comprise his life-saving equipment.

Although Bromley's head would not come up to Lindbergh's chin, he

is a determined flyer and is not deterred by Wood's fate.

MIRACULOUS CHINO MAN FACES JAIL

Wonder Healer Guilty of Practice of Medicine Without License

CHINO, Sept. 4.—Miracles ceased to function for Armando Dominguez, known for years as Chino's miracle man and wonder healer, when he was taken before Superior Judge Charles L. Allison to answer a charge of practicing medicine without a license.

Dominguez was found guilty by a jury. It was nothing new to Dominguez, who has been arrested on the charge of practicing medicine without a license. In the past he gained national prominence by his wonder cures, and selling folk from all over the United States a path to his humble home here for relief.

They were evidently cured through his mystic treatment, and each time he was arrested on the charge of having no license he gained his freedom. Dominguez would take no payment for his "cures" but made no collection if "gifts" were left by satisfied customers. These "gifts" often were costly medicines and surgical instruments leading to his arrest. The money was taken to the Bank of America for safe keeping.

The miracle man may spend two years in jail, as the charge is a misdemeanor. Dominguez's application for probation, hearing of which will be held the 14th inst.

Whirr of Bean Threshers Now Heard in Valley

RENEDE, Sept. 4.—The baby lima bean harvest in San Fernando Valley is on. The first sack of the new season has been delivered to the association warehouse as a forerunner of the 100,000 100-pound sacks that later are to arrive. A Japanese grower on Victory Boulevard, in the first load, for this time of the year opening prices on baby limas are high. Independent buyers offer 10 to 15 cents and 10 cents for later September deliveries. Blackberry growers are expected to be between the 15th inst. and October 15, next. He also states that the crop was damaged about 10 per cent because of the hot days in last month, cutting the estimate of the entire valley crop from 250,000 sacks to 150,000. The loss, however, will be offset by the higher price, which will prevail, Deaux says.

Present high prices are due to the fact that there are no left-over beans from last year. Bean straw this season will sell for about \$1.50 a ton, which is much higher than in preceding years. The baby lima crop and its by-products will bring growers in San Fernando Valley this year nearly \$2,000,000, according to present estimates.

WAR AND TRAFFIC IN SHERMAN'S CATEGORY

INGLEWOOD, Sept. 4.—"Sherman said 'War is hell,' but he never lived in the war of automobiles," it was declared in an address at the Inglewood Chamber of Commerce by Frank P. Merriam of Long Beach, former Speaker of the California Legislature.

More deaths are caused in this State and in the United States by the automobile than by all other causes combined, it was declared by the speaker, but it needs more than laws to control the situation, he was emphatic. Presently, he added, the newly enacted laws, passed in an attempt to remedy the situation, will not accomplish as much as is hoped for them. It rests with the individual motorist to drive carefully, with full regard for the rights and safety of others.

The speaker was introduced by Attorney Ernest M. Mansour, past president of the Inglewood chamber and a vice-president of the Harbor District Chamber of Commerce, of which Mr. Merriam is president emeritus.

DRAWINGS OF FLOAT WILL BE SUBMITTED

SAN FERNANDO, Sept. 4.—Six hundred dollars has been contributed to the fund to defray the cost of the float in the Pasadena Tournament of Roses on New Year's Day. About \$400 more is to be subscribed. The committee has plans within the next few days to examine the color drawings by Langley J. Goodman of Pasadena who has previously designed several prize-winning floats. Goodman has been asked to draw a design suggesting a Mother's Day theme.

HORSE RUNWAYS STILL REPORTED

NORTH HOLLYWOOD, Sept. 4.—All the horses haven't disappeared yet, and they are still running away. Dion Postoli, 11801 Triad street, was driving his nag, attached to a small hay rake. The horse shied at a piece of paper and Postoli fell to the ground. Two ribs were fractured. He was treated at the local emergency hospital. Postoli told doctors he has never been in an auto accident.

BLACK BAG, CURRENCY, IN CUSTODY

But Redlands Police Don't Know Why Iowa Sheriff's Wire Asked for Arrest

REDLANDS, Sept. 4.—With \$12,300 in loose currency in a nice, shiny black bag which he carried safely all the way from Omaha, Neb., Jacob Vilger was taken into custody by Redlands police as he stepped from the Southern Pacific train at the main line depot in San Timoteo Canyon.

The arrest was made on telegraphic information received by Chief Thomas today from Sheriff Hugo Snyder of Orange City, Iowa, whereby Vilger was described as the man and the black bag, but no information as to the reason for demanding his arrest.

Vilger intimated that the trouble originated in a difference of opinion with his wife in Orange City. He stated to the police that he had left his wife \$5000 in cash and \$30,000 in negotiable securities and gave the impression that he was a wealthy man.

The money was taken to the Bank of America for safe keeping.

Pharmacy Clerk Found Dead by Two Customers

GLENDALE, Sept. 4.—Police investigating the death of P. C. Nash, 41-year-old pharmacist, of 234 North Maryland avenue, who was found dead in a chair at the Chambers Pharmacy, Central avenue and Broadway, last night, hold to the belief that Nash committed suicide by drinking the contents of a phial bearing a poison label that was found on the floor beside his chair.

Glendale Luteness P. C. Williams stated that Nash had been a resident of Glendale for ten days past after having worked in drug stores near Los Angeles and in India, and that he appeared to have been depressed because of ill health.

Nash's body was found by R. T. Rogers and Robert Lofel, students of 234 West Broadway, who had entered the store to patronize the fountain, failing to obtain service, the latter wanted to buy the prescription counter and found Nash slumped in his chair.

An inquiry will be conducted by the coroner's office.

Ensenada Sends Delegation Here

ENSENADA, Sept. 4.—This city will send its own delegation to Los Angeles, to join the 40th anniversary celebration of Mexico's independence, the 16th inst., commonly known as "Dias y seis de Septiembre."

Los Angeles civic leaders will leave tomorrow night on the Emma Alexander to meet two commercial firms officials here and discuss the joint celebration. The actual delegation from Mexico will arrive in this city Sunday night, the 16th inst., on the Ruth Alexander.

Weekly steamers between Los Angeles and Ensenada have served to establish a most friendly relationship between the two communities, it is stated, and next year the schedule is to be increased to three steamers weekly, according to R. B. Shuttles, assistant general passenger agent of the Admiral Line.

UPLAND OUTRAGED BY RUIN OF PARK GRASS

UPLAND, Sept. 4.—This was an outrage, community today, from the fact that the grass, promised between 2 and 4 o'clock this morning, was driven over by an automobile.

The car, a 1928 model, was driven over the grass, completely ruining the lawn, considered the most beautiful stretch of grass in Southern California.

As the sprinklers had been turned on until late at night, the ground was soft and the machine at times sank to its hubs, and the great holes in the beautiful carpet of green.

Authorities are convinced the driver of the car was drunk.

VALLEY ORANGES SENT TO FOREIGN MARKETS

SAN FERNANDO, Sept. 4.—Billings of the San Fernando Fruit Growers' Association show that oranges from this valley are being shipped to all parts of the world. During last week several carloads were sent to China, Hongkong, Hamburg, Germany, and to London, according to F. A. Pomeroy, manager. With each year it is stated there is an increase in orange shipments to foreign parts.

WOMEN OF AFFAIRS

Thousand Delegates May Attend Business and Professional Meeting

PASADENA, Sept. 4.—With more than 500 delegates, it is expected that delegates will attend the State convention of the Business and Professional Women's Clubs, which will be held at the Hotel Huntington tomorrow morning.

Among the speakers announced today by Mrs. Harriet B. Sterling of this city, convention chairman, will be Dr. Miriam Van Waters, president of the California Conference of Social Work; Dr. Robert Freeman, pastor of the Pasadena Presbyterian Church; Mrs. Anna T. Till, psychoanalyst; Mrs. Anna P. Johnson of Los Angeles, chairman of the State legislative committee, and others.

The State officers who will be in

DAVENPORT RESIGNS CITY COUNCIL POST

ONTARIO, Sept. 4.—City officials today began "scouting around" for some one to take the place on the City Council vacated last night by J. L. Davenport, prominent citrus grower, who tendered his resignation because of poor health.

Davenport, in his resignation, declared heart trouble has made it necessary for him to resign. He was chairman of the finance committee and a member of the city fire commission.

The resignation was accepted and plans made for filling his chair until the spring election.

GRAND JURY LOOK INTO CONSPIRACY

Investigation of Conspiracy in District Attorney's Office Co-operates in

SAN DIEGO, Sept. 4.—County grand jury today organized in San Diego, today was charged with investigating a conspiracy to defraud the district attorney's office.

The grand jury was organized today by Judge J. W. Smith, who is in charge of the investigation. The grand jury is composed of 12 members, including the district attorney, who is in charge of the investigation.

BLACK BAG, CURRENCY, IN CUSTODY

But Redlands Police Don't Know Why Iowa Sheriff's Wire Asked for Arrest

REDLANDS, Sept. 4.—With \$12,300 in loose currency in a nice, shiny black bag which he carried safely all the way from Omaha, Neb., Jacob Vilger was taken into custody by Redlands police as he stepped from the Southern Pacific train at the main line depot in San Timoteo Canyon.

The arrest was made on telegraphic information received by Chief Thomas today from Sheriff Hugo Snyder of Orange City, Iowa, whereby Vilger was described as the man and the black bag, but no information as to the reason for demanding his arrest.

Vilger intimated that the trouble originated in a difference of opinion with his wife in Orange City. He stated to the police that he had left his wife \$5000 in cash and \$30,000 in negotiable securities and gave the impression that he was a wealthy man.

The money was taken to the Bank of America for safe keeping.

HIGH LIGHTS OF HISTORY 1438

The Story of the World War 208—Americans Ordered to the Marne.

by J. CARROLL MANSFIELD

WHEN THE GREAT GERMAN DRIVE OF MAY, 1918, BROKE THROUGH THE FRENCH LINE BETWEEN THE AISNE AND THE MARNE, TWO AMERICAN DIVISIONS, THE 2ND AND 3RD, WERE RUSHED (MAY 30) TO THE AID OF THE STRICKEN FRENCH.

THE 2ND DIVISION (REGULARS AND MARINES), WHICH WAS ON ITS WAY FROM THE VERDUN-ST. MIHEL SECTOR TO JOIN THE 1ST BEFORE MONSIEUR DIDIER, WAS HASTILY THROWN ACROSS THE PARIS-CHATEAU THIERRY ROAD, WEST OF THE LATTER PLACE, TO DEFEND THAT APPROACH TO PARIS.

THE 3RD DIVISION WAS ORDERED TO CHATEAU THIERRY TO PREVENT THE ENEMY CROSSING THE MARNE. IN TRUCKS AND ON FOOT, THE UNITS OF THE TWO DIVISIONS RACED TO THEIR APPOINTED STATIONS.

THE 3RD DIVISION HAD NEVER BEEN UNDER FIRE, NOR EVEN IN THE TRENCHES OF A QUIET SECTOR, BUT WAS PLUNGED DIRECTLY FROM THE TRAINING CAMP INTO THE BIRTH-ING CALUPPON OF BATTLE. (A. P. photo.)

GRAND JURY TO LOOK INTO RAY

Investigation of Conspiracy Ordered

District Attorney Francisco Co-operate in Quiz

Hints and Rumors Fly That and Fast at San Diego

SAN DIEGO, Sept. 4.—County grand jury which was organized in Superior Court this afternoon, today was asked to investigate an alleged conspiracy against the county law, whereby certain persons said to have been victims of a raid. This was learned today at the county building.

The police raid today was estimated to have cost \$25,000 worth of liquor. The promoters of the alleged conspiracy were said to have been out their arrangements for the raid only after paying a "kick" of \$10,000 to the police. According to the current rumor after the raid, "kick" money was supposed to be paid, but apparently the sale was not "in" standing, and the money was carried out.

Dist. Atty. Francisco Co-operate in Quiz. In accordance with the provisions of the liquor law, if such a conspiracy was proven, the county attorney would be required to prosecute. While the conspiracy, or his meager hearing, the rumors go on, did not get into the grand jury's hands, but merely to the grand jury, yet the fact that the grand jury had been asked to investigate, was a sign of the law, he said.

The conspirators under circumstances should be prosecuted. The District Attorney, Francisco, said he was not willing to aid the grand jury in its ability to uncover the alleged bridges. Desperadoes smuggle their way into the city through their women folk. (A. P. photo.)

Epstein Chosen to Head Anaheim Merchants' Association

ANAHEIM, Sept. 4.—Epstein was elected president of the Anaheim Merchants' Association today following which the association took a reorganization. The group went on to the annual meeting of the association, which was held at the Hotel California.

more than 500 reservations are expected that attend the convention of the California Professional Society, which opens tomorrow morning. The convention will be held at the Hotel California.

THE BEASTS OF TARZAN

By Edgar Rice Burroughs

GASOLINE ALLEY

The Hungry Crew

On one occasion as they were dining upon the carcass of a bear that Numa had killed, Numa, the lion, grim and terrible, broke through the tangled grass close beside them. With a hoarse, warning note, he sprang forward to chase them from their feast. Sheta bounded into a nearby thicket, while Tarzan leaped up the branches of an overhanging tree.

Here the ape-man unlocked his grass rope from about his back. And as Numa stood above the body of the bear, challenging head, erect, he dropped the sinuous noose about the lion's neck, drawing the stout strands taut with a sudden jerk. At the same time he called shrilly for Sheta, as he drew the strangling lion upward until only his hind feet touched the ground.

Quickly Tarzan made the rope fast, and dropped to the earth beside the infuriated lion. The panther tore and rent Numa on one side while the ape-man struck home repeatedly upon the other. Before the mighty clashing of the king of beasts had succeeded in parting the rope, he hung quite harmless and dead in the noose. And then upon the jungle air there rose the victory cry.

In union from the savage throat of Sheta and Tarzan, came blended one frightful, upony scream of the bull-ape and a panther who had made a kill. As the last notes died away in a long-drawn, fearsome wail, a score of painted warriors, pulling their big war canoes upon the beach, halted to stare in the direction of the jungle and to listen in petrified amazement.

EXCHANGE HEAD SANGUINE

Sidney L. Schwartz, San Francisco President, Predicts Substantial Rise in Price of Coast Seats

BY EARLE E. CROWE
Sidney L. Schwartz, president of the San Francisco Stock Exchange, believes that large and increasing group of people who advise against selling the Pacific Coast stock. As they say in the stock market, Mr. Schwartz is "long" of Pacific Coast, meaning that he is on the constructive or buying side of any sound enterprise situated in the Pacific seaboard States.

Applying this point of view to stock exchanges, Mr. Schwartz remarked yesterday, in discussing the opening of offices in Los Angeles by Sutor & Co., of which he is a member, that seats on the Los Angeles and San Francisco Stock Exchanges have hardly started to discount the near future in Pacific Coast economic development.

PRICE RISE FORECAST
"Within less than ten years," he said, "membership privileges on the Los Angeles and San Francisco stock exchanges will be selling for the same price that New York Stock Exchange seats now bring."

For the information of prospective buyers, New York seats are now ranging around \$500,000, compared with approximately \$200,000 for Los Angeles Stock and Exchange memberships combined and \$225,000 for the San Francisco Stock and Exchange seats.

In entering Los Angeles with its new office, Sutor & Co. makes the seventeenth member of the San Francisco Stock Exchange to purchase a seat and operate actively in Los Angeles. Commenting on the migration of San Francisco houses to Los Angeles with branch offices, Mr. Schwartz declared that this city is clearly destined to be the third largest financial center in the country, and will do a brokerage business that will substantially surpass present expectations.

Furthermore, he explained, the San Francisco and Los Angeles exchanges are working to grow together. The two exchanges trade in virtually the same stocks and their interests in the same. He believes that the interlocking of membership is a wholesome trend and will continue to grow.

THIRD PLACE WON
As Mr. Schwartz looks at the development of security markets and financial centers, the two Pacific Coast markets, viewed as one market, have already clinched their position as the third largest in the country. He notices a definite tendency among brokers to trade between New York, Chicago and the Pacific Coast, the East having recognized that certain stocks have their best markets on the Coast and in Chicago.

Investment and traders many of them coming from the East, as well as Southern California, make this tendency possible. They display a marked interest in Pacific Coast stocks, particularly in the Los Angeles and San Francisco exchanges.

Mr. Schwartz also envisages the Los Angeles market as a great center for airplane stocks, as Detroit has been for the automobile stocks. It is his opinion, he said, that airplane trading will constitute a greater proportion of the Los Angeles volume than most people now realize.

Rail Traffic at New High Level

WASHINGTON, Sept. 4. (Exclusive)—Freight traffic is now the heaviest ever reported for this season of the year, according to reports filed today by the railroads with the car-service division of the American Railway Association.

Loading of revenue freight for the week ended on August 24, totaled 1,128,353 cars, which was not only the highest for any week so far this year, but the highest for any corresponding week on record. Compared with the same week last year, this total was an increase of 468,635 cars, while it also was an increase of 50,102 cars over the week of August 24, this year, also was an increase of 29,266 cars over the preceding week this year, in cases being reported in the leading of all commodities.

LOADING OF REVENUE FREIGHT FOR THE WEEK ENDED ON AUGUST 24, 1929. Compared with the same week last year, this total was an increase of 468,635 cars, while it also was an increase of 50,102 cars over the week of August 24, this year, also was an increase of 29,266 cars over the preceding week this year, in cases being reported in the leading of all commodities.

EXTRA DECLARED BY JANTZEN KNITTING

Directors of the Jantzen Knitting Mills announced yesterday the declaration of an extra dividend of 50 cents a share payable on the 25th inst. This is in addition to the regular quarterly dividend payable on the 1st of February, May, August and November at the annual rate of \$2 a share. Sales for ten months ended June 30, amounted to \$4,000,000, against slightly more than \$3,000,000 for the entire fiscal year closed August 31, 1928.

LOCAL MEN WINNERS IN SALES CONTEST

In recognition of their sales records P. R. Wilson, manager of the Los Angeles district of the Monroe Calculating Machine Company, Inc., J. H. Goodwin and L. L. Kelly, company representatives, have been invited to attend the High Point Club convention during the week beginning the 9th inst. at Chatham, Mass.

UNIVERSAL PICTURES NET INCOME LOWER

NEW YORK, Sept. 4. (Exclusive)—Universal Pictures Co., Inc., today reported net income of \$46,171 for six months to May 4, last, after all charges and provision for Federal tax, as compared with \$45,133 in the 1928 period.

NEW SAFETY PLANE DEAL PROJECTED

Absorption of Maximum Company Through Stock Exchange Pending

With the announcement of an order taken by Maximum Safety Airplane Company the 3rd inst. from a representative of an unnamed South American country for 150 airplanes, including straight flying ships, trainers, military and bombing planes at a total cost of \$3,046,000 at the factory, officials of the company yesterday revealed plans for the formation of the General Aircraft and Finance Company which it is proposed, will absorb the Maximum Safety Airplane through an exchange of stock and securities.

Charles Jones, director of the latter concern.

Mr. Jones, as general manager of Maximum Safety Airplane, purchased 10,000 shares of Maximum Safety stock which, he said, will be turned into the General Aircraft and Finance Company, and which represents the controlling interest in Maximum Safety.

The basis of the exchange of General Aircraft stock for Maximum Safety stock will be 100 shares of General Aircraft for 1 share of Maximum Safety.

Application to list the General Aircraft stock will be made on the Los Angeles and New York stock exchanges.

In exchange for real estate, stocks, bonds, mortgages and other assets appraised at \$4,000,000, it is proposed to issue 4,000,000 shares of General Aircraft stock, which will have a total authorized issue of 10,000,000 shares, with 1,248,635 shares allotted for the exchange of 15,119 outstanding shares of Maximum Safety. The balance of the 4,000,000 shares to be sold to the public to net the company \$1 per share and 2,000,000 shares to be held in the treasury.

An audit is now being made of the \$4,000,000 assets prior to completion of the organization of General Aircraft.

James McDonald, president of Maximum Safety Airplane Company, which will maintain its identity as a division of General Aircraft, will be president of the new company. Maximum Safety Airplane Company will begin work on its foreign contract shortly. Officials stated that the name of the Latin American country was being withheld from publication for the present at the request of the signers of the contract.

Pickwick Air Traffic Active

Traffic over the Pickwick Airways, Inc. on the regular scheduled flights between San Francisco, Los Angeles and San Diego, totaled 2174 passengers in the sixty-day period ending July 31, 1929, according to J. D. Watson, district traffic manager, announced yesterday. July was the busiest month with 357 passengers transported, attributed by Mr. Watson to the conventions here at that time and the heavy traffic in the West Coast. The passengers were carried.

A sharp increase in traffic from here to San Francisco by the "Rite Coach" line was noted. The line made in August with a total of 240 passengers against 604 in July, a gain of 23 per cent. While definite figures are not available, Mr. Watson stated that travel over the Pickwick stages on all routes was reported at a new high mark in the past few months.

Investment Trust Merger Ratified

Representing a \$40,000,000 merger of investment trusts, the consolidation of General American Investors Company, Inc., and Second General American Investors Company, Inc., was ratified by stockholders of the two companies yesterday. The new company which will be known as the General American Investors Company, Inc., will continue under the same management and sponsorship as the predecessor companies that were organized and directed under the banking auspices of Lazard Freres & Lehman Brothers.

New temporary certificates for shares of stock will shortly be available at the office of the Commercial National Bank and Trust Company of New York for exchange for certificates of the constituent companies.

Natural Gas Line Permit Granted

SAN FRANCISCO, Sept. 4. (Exclusive)—Pacific Gas and Electric Company has been granted a permit by the California Railroad Commission to serve natural gas in territory between Fresno and Richmond in Contra Costa county. The commission denied the Western California Gas Company permission to enter the same territory.

The new transmission line will be built by Pacific Gas and Electric Company's main line extending from Kettleman Hills and will branch off at Pinocha Pass, extending each unit and a distribution of profit of \$3 on each unit of the Ferguson Investment Trust No. 27.

Private trust No. 50 has paid over a distribution of profits in the past twenty-one months totaling 25 per cent on each unit over this period. Private trust No. 27 has paid 24 per cent during the same period. Profits in the Ferguson Investment Trusts are made in buying and selling selected real estate.

TIME EXTENDED

NEW YORK, Sept. 4. (Exclusive)—Cuba Sugar Reorganization Committee today announced that it would extend the time for three classes of securities has now been deposited. The deposit time is extended to the 11th inst.

RASKOB SCHEME VISIONARY

Uncertainty of Appreciation in Value of Stock Purchases Weak Spot in Get Rich Quick System

BY JOHN F. SINCLAIR
[Copyright, 1929, by the South American Newspaper Alliance]
NEW YORK, Sept. 4.—John J. Raskob, formerly the chairman of the finance committee of the General Motors Company, and spoken of as the man who has helped to create more millionaires in the United States than any other man in American business history, has come forward with a get-rich scheme that is causing widespread discussion.

Recently he declared that if a person will save \$15 a month for twenty years and invest the money in sound common stocks, that person will find himself worth at least \$50,000 at the end of that time. Under such an arrangement Raskob does not see why anybody should be poor—everybody can be rich.

But would such an arrangement finally work out? What bank or building loan association or life insurance company offers such a fabulous return?

If one compounds interest at 5 per cent during this period, he would be very far short of \$50,000, of course, if one could have foreseen what General Motors as shown during the last decade, then all those that bought that particular stock could sell at the increased value. But all stocks have not increased in such a way. It would take a wise man indeed to pick stocks that always rise.

The last five years have seen the greatest "bull" movement in American history. Can anyone guarantee that such a movement will continue? It's one thing to save regularly a certain amount and let the interest accumulate, but it is an entirely different thing to buy common stocks with no guarantee of return and play for a large rise in the equities.

Some of the best stocks today are the highest priced. Some banks stocks, for instance, are selling on a basis of seventy-five times their earnings.

If Mr. Raskob will take the record of common stocks during the fifty years immediately preceding the great war, and figure the average rise in the stocks during that period, he will find that the average results he suggests as practicable now? No, the world hasn't yet reached the point where common stocks, even good ones, are a sure fire bet.

Until that time arrives, every man who buys stocks must take his chance.

I received recently a long-distance call from one of the great mid-western cities, asking information of the report widely circulated in that city—that their largest bank was about to be taken over by one of New York's "big three."

Was or was not this rumor true?

I called up one of the vice-presidents of the New York bank, a man who should know what is going on, and he said that his particular bank had not purchased any interest in any bank outside of New York City.

Nevertheless, these rumors continue with great persistence.

A study of banks in the twelve largest cities in the United States, which have approximately 67 per cent of the total bank deposits of the country, show that there were only three more banks in the aggregate in these cities five years ago with deposits of at least \$10,000,000 or more, than there are today.

While twenty-five small banks have failed in Florida in recent months due to the fruit fly, the

BROKERAGE HOUSE INVADES SEATTLE

Anderson & Fox, member of the New York and San Francisco stock exchanges, has opened a Seattle office, with C. C. Peters, former manager of the Portland branch, in charge. This office marks the tenth to be opened by Anderson & Fox, which has been expanding into the key cities of the Pacific Coast. Branches are located in New York, Portland, San Francisco, Oakland, Los Angeles, Hollywood and Beverly Hills.

PAY REGULAR

Directors of the Landowners' Realty Company declared yesterday the regular monthly dividend of 1 per cent, payable on the 1st inst. to stock of record August 15, last. C. G. Lewis, treasurer, stated that the company owns realty interests in more than fifty well-known Santa Fe Springs, Richmond and Signal Hill fields.

BULLS FALTER IN FORAY OF BEARS

Market Tone Reactionary on Spasmodic Selling

Break Attributed Partly to Technical Position

Worry Over Credit Situation Also Speeds Slump

NEW YORK, Sept. 4. (Exclusive)—The bull movement of the stock market appeared to have spent its force today and titanic waves of selling imparted an emphatically reactionary tone to the list.

Wall street was inclined once more to worry about the credit outlook, but regardless of other factors, the lifting up of stocks last week and yesterday had been so rapid that conservative traders felt a corrective reaction was due.

The weekly Wednesday weakness over an increase in the Bank of England's discount rate, which would be announced before the opening tomorrow, was again a deterrent. But sterling held steady and private advices from London indicated that it was felt the expected increase would be postponed for another week.

The monthly stock exchange total of members' borrowings, announced after the close, meant another increase of more than \$400,000,000 last month. The total of \$7,281,818,424, a new high record, represented an increase of more than \$2,500,000,000 in the past year, and about \$1,200,000,000 in the past three months.

This huge August upturn was more than the weekly Federal Reserve figures had led Wall street to expect. Although they indicated that the increase was a gain of but \$257,000,000 the four weeks ended August 28.

MONEY STEADY
Call money held at 8 per cent all day and bankers stated that credit requirements for crop shipment was delaying the return of funds to this center after the month-end disbursements. It was pointed out that increasing demands for commercial credit, as the autumn activity gets under way will also tend to keep money tight. With the enormous absorption of funds by the stock market, despite the increase in New York reserve bank's rediscount rate, there was much speculation as to what further restrictive measures the reserve authorities might take.

Business news continued favorable. Sears, Roebuck announced that August sales were at a new high record for that month, more than 30 per cent above August of last year. Iron Age reported little to be changed in the iron and steel industry, explaining that no marked recession is expected during September.

High production in August led to a new high record for that month, close to the July total. Further firmness in copper prices was noted, and operators in the Oklahoma City pool were said to have agreed to petition for a thirty-day shutdown.

The Huntington Park Union High School District has been acting as a High School District since 1909. It includes the City of Huntington Park and adjacent territory. Huntington Park is one of the municipalities of major importance in the Los Angeles area, and is both a business and residential city, being surrounded on three sides by manufacturing and industrial districts in which are located some of the largest industrial plants in Southern California.

DOLORE'S REPORTED ENGAGED

Miss Del Rio to Wed Teddy Joyce, New Yorker, Friends Intimate

Announcement of the engagement of Dolores Del Rio, Mexican film star, to Teddy Joyce, widely known in eastern theatrical circles as a master of ceremonies, is expected within a short time, according to her friends yesterday.

Her friends made this prediction in spite of Miss Del Rio's denials which were first entered by her after she and Joyce were seen frequently together in Pittsburgh while she was on her recent personal appearance tour of the country.

Miss Del Rio returned to Hollywood several days ago when she reiterated her denial of the betrothal.

In speaking of Joyce, Miss Del Rio declared that she admires him but is not in love, and that she is placing her picture career up in the air.

She returned to Hollywood several days ago when she reiterated her denial of the betrothal.

MRS. PANTAGES PICKS JURORS

Accused Woman's Whispered Word Rules Selection

Challenges Fly Fast During Second Day of Trial

Steuer Reveals Plans for Main Defense

Mrs. Lois Pantages, charged with murder as the result of an automobile accident following which Joe Rekumoto, a Japanese, died, and who now is on trial before Superior Judge Hardy, is selecting her own jury.

All day Tuesday, the opening day of the trial, the 41-year-old wife of Alexander Pantages, theater magnate, who himself is awaiting trial, charged with having attacked a young girl, depended on the judgment of Defense Attorneys Gilbert, Ford and Steuer in the matter of jury selection.

With the opening of court yesterday, however, Mrs. Pantages, from her position at the end of the counsel table, began to whisper to Attorney Ford, seated next to her, and he in turn communicated his client's wishes to Gilbert.

MANY CHALLENGES

And with Mrs. Pantages taking a part in the selection of twelve men and women to hear her case, peremptory challenges came thick and fast throughout the day.

One after another men and women alike fell before the defense challenges, the objection to the prospective jurors coming each time after a whispered conversation between Mrs. Pantages and Attorney Ford.

With the defense using challenges, headed by Dep. Dist. Atty. Costello, came to life and began to match challenges with challenges.

At the close of the court day late yesterday every one of the original six men and six women and into the jury box had fallen by the wayside and four new women and eight men had their seats.

In all, thirty-seven, prospective jurors have either passed through or are now in the jury box. Of the twenty peremptory challenges allowed under the law in a murder case for each side but ten remain to the defense and the same number to the prosecution.

WILL GET JURY TODAY

Courtroom observers at the close of the day's session yesterday, however, predicted that at the rate with which challenges are being hurled by both sides a jury will be completed today.

In the box at the adjournment of court last night were Mrs. Anti Eaton, Mrs. Clyde A. Gates, Mrs. J. C. Jewett, Emanuel Furgode, Ernest Turner, William L. Cummings, P. G. Peterson, Hugh G. Schultz, Z. R. Schneider, Robert L. Wood, Robert W. Dow and Mrs. Florence C. McDowell.

Max Steuer, New York attorney imported to aid in the Pantages defense, contributed the only serious challenge of the court day late yesterday afternoon when he arose from a quiet corner of the courtroom when he had been seated next to the defense and began to challenge the entire day's session and began the interrogation of L. J. Morgan, a prospective juror, later challenged by the prosecution.

Steuer after several general questions explained in a low and even tone to Morgan that "a man was not killed in the automobile accident which brought Mrs. Pantages into court—he died."

In these few words the New York attorney laid bare the very heart of the Pantages defense and showed without a doubt that the claim was that Rekumoto died as the result of an operation performed after the accident and not from the effects of the crash between his automobile and the machine driven by Mrs. Pantages.

COLORFUL FIGURE

Morgan, to whom Attorney Steuer's remarks were addressed, was one of the most colorful figures to go into the jury box during the day. Clutching an umbrella in one hand, a light cap in the other and with a toothpick in his mouth, Morgan, who is close to 70 years of age, went into the box when his name was called.

In answer to a number of general questions propounded by Judge Hardy, the prospective juror explained that he has lived in Montana and Kansas most of his life and is a member of the Montana State Assembly as well as the Montana State Assembly.

After Attorney Steuer began the questioning of Morgan, the New York attorney put a question to the jury which the man intended to learn from him just how far the State will have to prove the case against Mrs. Pantages in order to obtain a conviction.

"You would have the prosecution prove that he (Rekumoto) died as a result of or as the direct cause of this accident?"

"If it should appear that there was any cause between the accident and the death which might have brought about the death, then of course you will find the defendant not guilty?"

INDICATES DEFENSE

Time and many more questions ending with the direct statement by Steuer that the Japanese was not killed but died, and all of which were greeted by a storm of objections from Dep. Dist. Atty. Costello, indicated the line of major defense to be presented by Mrs. Pantages.

Most of the prospective jurors declared they had no opinion of the case. Some of them, however, admitted they were influenced by what they had read in newspapers. Others answered all questions as propounded by the various counsel to the apparent satisfaction of every-

body.

PROPERTY MAP FILED

A map showing all property proposed to be condemned in connection with the widening of Overland avenue to a width of eighty feet between Pico Boulevard and Venice Boulevard was filed with the City Council yesterday by City Engineer Gladson, his assistant, who represented The Times.

Glamor of Old Spain Returns on City's Birthday

Founding of Los Angeles Reviewed in Pageant

Gay Events of Spanish Days Re-enacted at Plaza

New Felipe de Neve Public Library Dedicated

Treading over historic ground, Franciscan father, Spanish don and gayly decked Indian again enacted in religious processionals and gay fiestas, at the ancient Plaza last night, the founding of the city of Los Angeles, 148 years ago.

Huge crowds, colorful with the old costumes of bright shawl and bolero, watched a procession of priests tread up the old roadway of Olvera street, past the old Avila adobe to the Plaza. There with appropriate religious ceremonials the blessing of the cross was performed. Immediately afterward fiesta was declared and there was dancing in the streets and music by Spanish orchestras.

LIBRARY DEDICATED

At 8 o'clock the dedication ceremonies of the Felipe de Neve public library at Lafayette Square under the auspices of the Library Board were conducted.

The Plaza last night was gayly illuminated. The costumes of Old Spain were in evidence everywhere, and with the uniforms of the Native Sons, the scene was a brilliant one. Spanish serenades were led by vendors and troubadours sang and confetti was thrown.

A reception to the old Spanish families was held at the Avila adobe, which was directed by Mrs. Christine Sterling, one of the sponsors of the birthday celebration and known also for her work in restoring and preserving the ancient Avila adobe.

PLUMMER AT HEAD

Don E. R. Plummer of Hollywood and a ranchero of early California was at the head of the pageant and enacted the role of Felipe de Neve, California's Governor in 1781, who founded the city. Don Pedro Lugo, one of the old settlers of Los Angeles and a son of one of the original families, attended him.

From the Santa Barbara mission came Father Felipe and Brother Leopold, both members of the Franciscan order, who with Father A. C. M. J. de la Cruz, president of the Church of Our Lady, at the Plaza, blessed the cross in the Plaza. The ceremonial was brief and impressive and was made audible to the vast crowd by loud speakers.

OLD DISHES SERVED

In the patio back of the Avila adobe ancient dishes were served and an old oven, coals heaped high, kept things warm for the crowd, which swarmed through the historic grounds and dwelling.

Great clusters of grapes were used as decorations and everywhere the touch of old Spain was in evidence.

CASCARONES OF MEXICAN CONFETTI were provided in eggshell containers. The California Vineyardists Association donated a huge quantity of grapes which were distributed free to the crowd. Special lighting effects were arranged for the Plaza by the Bureau of Fire and Light. Greenery decorations were carried out by the city park department.

ANCIENT DWELLING

The interest centered about the old Avila adobe, which is the oldest home in Los Angeles. The building was once the headquarters of Commodore R. F. Stockton, when the city was taken from Mexico. Soldiers from the One Hundred and Sixtieth Infantry attire a good Spanish regiments and others in uniforms of the Mexican war period rent color to the scene.

At the time the processionals started on Olvera street a crowd of several thousand people had gathered on the Plaza.

MONNETTE SPEAKS

At the dedication of the Felipe de Neve branch of the public library at Lafayette Square last night, an audience of several hundred persons gathered. The presentation of the building was made by Orra E. Monnette, president of the Board of Library Commissioners.

"I believe that the selection of the name for this branch, that of Felipe de Neve, the founder of the city of Los Angeles, is particularly appropriate. The more we know of this really great character, the more we are moved to admiration. He was a strong man, a good man and a statesman, a real George Washington to California, founding cities, freeing the people and codifying laws," he said.

Acceptance was made by Uccellman Williams, on behalf of the Greater Westlake Business Association.

CULTURAL CENTER

Councilman Williams called attention to the painting which hangs at the end of the great library hall entitled "California" and painted by Dana Bartlett. He said that he hoped the building will become the cultural center of the neighborhood.

Arthur M. Mills, former president of the Historical Society of Southern California, spoke on Felipe de Neve, the founder of the city. He traced the interesting life of the man in a brief address.

Mrs. W. W. Stillson, ex-regent of the Cabrillo chapter of the Daughters of the American Revolution, spoke briefly on the historic memorials of the D.A.R. in Los Angeles.

Judge Russ Avery, president of the Los Angeles Historical Society, chose for his subject "California's Beginnings." He traced the coming of the Spaniards, their peaceful reign, the missions, the administration of law under Mexico and finally the capture of the State by the Americans.

Collisions, nose dives and wreckage of scores of airplanes which fell upon the heads of spectators, without causing a single fatality, featured one of the most fascinating chapters in aviation history when more than 100 happy youngsters met yesterday at the Armory at Exposition Park to demonstrate the air-mindedness of modern youth.

Body and then were challenged for no obvious reason.

John W. Scott was challenged by the prosecution after he had stated that he was unable to see any male in Mrs. Pantages's actions, male being one of the legal things necessary to prove before a murder charge can stand.

Of all the jurors called into the box during the two days of examination which ended last night, Fred Smith, a bootmaker, was the only one, man or woman, who admitted having an opinion. He was dismissed for cause.

MORNING SESSION

At the closing of the morning session the defense had used five of their twenty peremptory challenges while the prosecution had removed their persons from the witness box by way of challenges. Both sides at noon declared themselves satisfied with a number of the men and women seated in the box, but Gilbert for the defense and Costello for the prosecution both indicated that they would continue to challenge until a number of the prospective jurors then in the jury box were removed.

For most of the morning the men and women called from the jury panel for examination were divided six to six, but at noon seven men and five women were seated and named for cause by both sides.

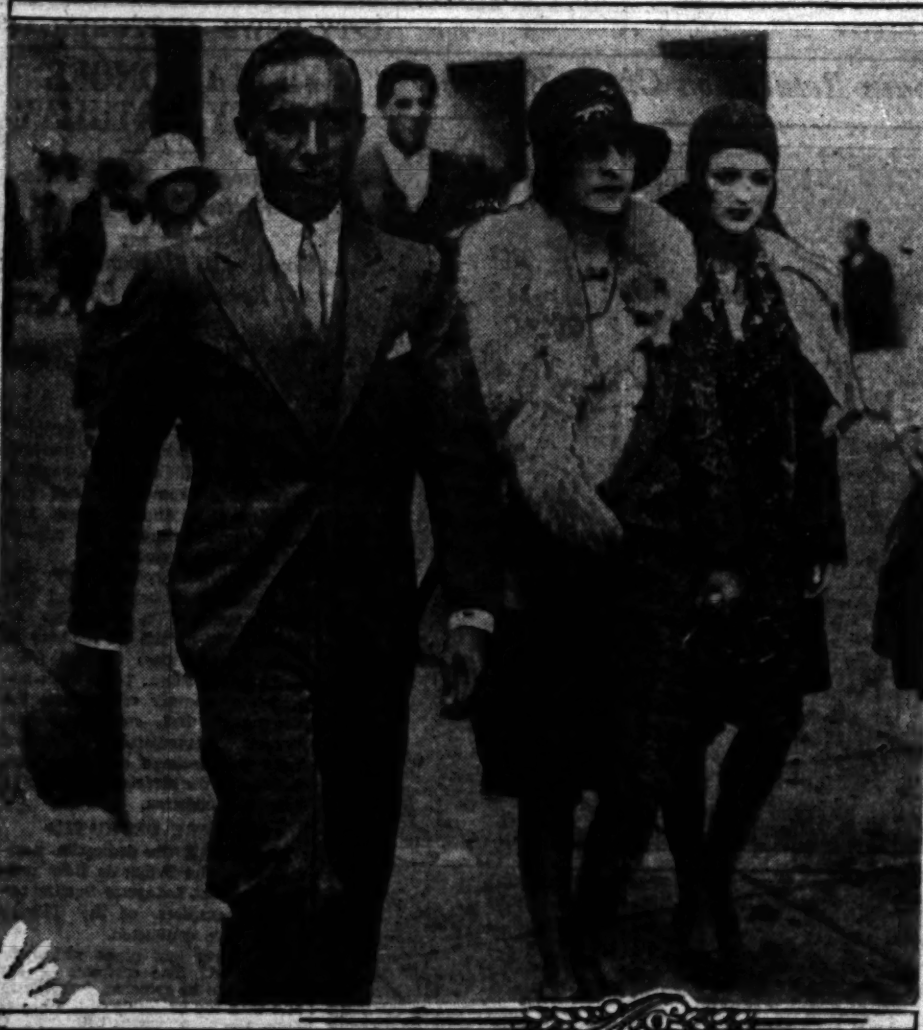

A sharp clash, the first since the beginning of the case Tuesday morning, between counsel came yesterday morning when Gilbert, head of the defense and Costello, head of the prosecution, attempted to have Mrs. Mable E. Wilson removed from the jury box for cause. The prospective juror woman, who had been called during her examination that she had read accounts of the fatal automobile accident in the newspapers and that in the accounts were true she had formed an opinion relative to Mrs. Pantages's guilt.

Costello rested the challenge and a word battle between the two attorneys took place. Judge Hardy then got into the affair and took over the questioning himself. After learning from Mrs. Wilson that what she had seen in the papers would in no way affect her judgment of the evidence and testimony the judge refused to allow the challenge for cause and then Mrs. Wilson was promptly removed from the jury box by peremptory challenge.

AUTO REGULATIONS

LA line on one side of the defense to be offered by Mrs. Pantages.

Accused Woman and Two of Her Loyal Attendants

Testimony at Trial Will Not Change Their Allegiance

tages came yesterday morning when Gilbert during the jury questioning asked again and again if the prospective jurors believed in the state and city automobile regulations.

"Do you believe that a person about to make a left-hand turn on a public highway should give ample warning to all other automobile drivers that a turn should be expected?"

Over the objection of Costello this question was put again and again by Gilbert and answered in various ways by the men and women under interrogation. However, all of them did declare that if the law required a signal to be given, and they were so instructed by the court, then they would weigh the matter if it appeared to be part of the case.

Gilbert's question relative to the left-hand turn, according to courtroom observers, can only mean that

the defense will contend that Joe Rokumoto, who died as a result of the accident, turned his automobile in front of Mrs. Pantages's car at Serrano avenue and Sunset Boulevard without giving the proper warning.

RENEW BATTLE

At just 11:15 a.m. Costello sprung a surprise on the defense counsel by passing the jury. The prosecution move at once sent Gilbert, Ford and Beure into a huddle and for a moment it looked as if a jury was in the box. Then came a defense challenge and Mrs. E. E. Beaumont, one of the first to be seated in the jury box Tuesday morning, was challenged and excused. Then the weary battle began all over again with the prosecution coming back with challenge directed at Mrs. Beure Sharp, whose name was called following the dismissal of Mrs. Beaumont.

Mrs. Pantages, who is in court on a murder charge, was arrested on June 17 following an automobile crash in which her husband, Lloyd, and two children, another woman and her two children were injured. Mrs. Pantages was herself seriously hurt.

Following the accident a number of witnesses were produced by the police who asserted Mrs. Pantages was intoxicated at the time of the accident and was driving on the wrong side of the street.

MISSING STATE'S WITNESS

Belief that Aloyse Leyendecker will return from New York to testify in the case of Mrs. Lola Pantages was asserted last night by Dep. Dist. Atty. Costello, who is conducting the prosecution of the theater magnate's wife. Leyendecker, a bus driver, is the so-called missing witness for whom the District Attorney's office has been searching. He was reported located in New York yesterday.

SAYS HE WILL RETURN

"To the best of my information, Leyendecker is in New York and will return to Los Angeles to testify in this action," Costello said last night. "We cannot force him to return, but I am confident that he will be here when we need his testimony. And that testimony will blast Hull's story."

The prosecutor referred to Bon-Hull, bus conductor, who is an important defense witness. Hull, according to prediction, is expected to support the defense's assertion that Rokumoto, the Japanese gardener, was responsible for the fatal automobile crash between his little car and Mrs. Pantages's machine in which he lost his life. Questions by W. I. Gilbert of defense counsel yesterday, foreshadowed that the defense will seek to show that Rokumoto made a left-hand turn against Mrs. Pantages's car when he had no chance of clearing, and possibly that he failed to signal his turn.

REBUTTAL PLANNED

The prosecutor's comment on the effect of Leyendecker's rebuttal bears out the prophecy that Hull was to testify in support of this view. Hull testified in the preliminary hearing that Rokumoto was at fault. Leyendecker subsequently told the prosecutors, according to Costello, that he discussed this point with Hull and that Hull had admitted he had not seen the automobile crash. Following that report of the prosecutors, Leyendecker disappeared. Detectives of the District Attorney's staff reported yesterday that they had located him in New York, and that he probably will return to testify at Mrs. Pantages's trial.

MICHIGAN LEADER GAINING

Milton R. Parmelee, president of the Michigan Society, yesterday was announced as recovering from a recent operation and looking forward to presiding at the annual fall picnic and reunion scheduled for Sycamore Grove Park, Saturday, the 21st inst. Several thousand former residents and tourists from Michigan are expected to attend.

FACE SLAP ADMITTED BY McNITT

Lawyer Says ex-Secretary Provoked Him, in Answer to Her \$75,000 Suit

Admitting that he threw water on her and slapped her face, but that he did so because of provocation, Rollin L. McNitt, attorney and law college dean, yesterday filed an answer in Superior Court to the suit for \$75,000 damages filed against him by Laura La Rock, his former secretary.

In her complaint Miss La Rock asserted McNitt attacked and beat her and threatened to throw her out of his office window on the eleventh floor of a downtown building. She declared the altercation occurred after McNitt accused her of revealing his personal affairs to his wife.

McNitt denies this in his answer, as well as most of the other charges made by Miss La Rock. He declares that he never provoked her to throw water on her and slap her face, calling her "vixen" and "prostitute" after he had notified her that he no longer desired her services. The incident was said to have occurred July 30, last, in McNitt's office.

FIESTA HONORS CITY BIRTHDAY

United States during the Mexican War.

The Elks' orchestra gave a half-hour concert.

COSTUME BALL CELEBRATES ANNIVERSARY

Los Angeles' birthday was celebrated last night by California Women of the Golden West in a costume ball at the Deauville Beach Club. Addressing the 600 costumed celebrants, Mrs. George Davidson Gilmore, president, announced that the costume ball is to be an annual observance of the founding of this city.

Beautiful costumes worn by the women dancers last night recalled early Spanish days of the public.

Ball arrangements were in charge of Mrs. Gilmore and Mrs. G. Leroy Pitts.

It Wasn't Rain on Windshield, A Heavy Dew

Drops of water that splattered windshields of motorists who drove to, or from home, after midnight yesterday was not rain, but merely heavy moisture caused by a low "dew point" temperature, according to Col. H. B. Hersey, weather forecaster.

Scores of reports reached the weather bureau that "it rained" in various sections of the Los Angeles area. Col. Hersey and his assistants made a complete check of the various stations in the county and Southern California and found that none of the instruments recorded precipitation.

Rainfall in Southern California at this time of the year has not been recorded by the Weather Bureau in eighteen years. Records show that only a few instances of rainfall have been registered here during September since the bureau was established.

"This year may establish a record," Col. Hersey asserted, "but it does it will not occur until the last few days of the month. I do not believe, however, that the indications promise anything but dry weather until about the middle of October."

Yesterday's maximum temperature was 72 degs. The lowest was 64 degs. The forecast for today and tomorrow predicts no change in temperatures.

JURY MAY ACT ON RUM GRAFT

Indictments at Tomorrow's Session Anticipated

McDonald and Others Appear in Quis on Police

Star Witness Wins Action to Go Free on Bond

Indictments against several persons named by Harry D. McDonald, in his charges that certain Los Angeles police extended protection to bootleggers and sold confiscated liquor, probably will be returned by the grand jury at its session tomorrow, it was disclosed at the District Attorney's office yesterday.

The grand jury spent all of yesterday in special session hearing twelve witnesses who testified regarding McDonald's charges. McDonald spent more than an hour on the witness stand and will be recalled for further questioning tomorrow.

Shortly before adjournment, the grand jury returned two secret indictments in Superior Judge Aggeler's court but it is understood the documents have no direct bearing upon the charges against police officers.

A few minutes after the indictment was returned, Joe Palmer, attorney for McDonald, won his argument before Judge Aggeler for approval of McDonald's release under bond. The attorney brought the matter up under a writ of habeas corpus. McDonald probably will be released early today as soon as he completes arrangements for the bond, the attorney announced.

According to Percy Hammen, deputy District Attorney in charge of grand jury matters, fifteen witnesses will be called to testify tomorrow. Special investigators, not associated with the District Attorney's office, have collected considerable corroborative evidence, he said, which will be presented as soon as possible.

Elwood Dyer, foreman of the grand jury, declined to discuss the nature of the evidence thus far obtained, but said that direct action in one way or the other will be taken within a few days.

ACTION TAKEN FOR NEW JAIL

(Continued from First Page)

winter coming on the number of arrests will be increasing and adding to the problem.

Martin informed the Police Commission that it should do something about temporary arrangements, get the commission on the subject and submit its demand to the City Council, which, he believes, will vote favorably on the action.

Chapman suggested that Knox and Britton confer with the board on the subject as quickly as possible. Knox suggested that the board order Childs Davis to present a temporary plan within a week, number of days and confer with the Bureau of Budget and Efficiency before submitting it to the commission.

OTHER PROPOSALS

Councilman Williams, who said emphatically something should be done to relieve the condition, declared that in the absence of funds being voted it is up to Council to make suitable provision.

At the suggestion of Williams, Dr. Parrish and Knox were requested to confer with Chief Davis in the preparation of plans for temporary health.

Health Commissioner Harvey stated that the commission is back of Dr. Parrish in his proposal to enforce the State sanitation laws in regard to the jail.

Health Commissioner Wilke asked the board if it was necessary to condemn the jail and then force the hand of the Police Commission toward action. Councilman Ingram suggested that the solution be placed in the hands of the Bureau of Budget and Efficiency for submission to Council.

CONDEMNATION SUITS ENTERED

(Continued from First Page)

Boulevard and North Main streets. Spring street when extended will be 100 feet wide. It will pass directly over the site of the Los Angeles County Jail Building, which will be razed to make way for the street.

ROLL OF PIONEERS

Defendants in the county's suit for the acquisition of land adjacent to the Spring-street extension include members of old pioneer families. Some of them are Joseph Beaudry, Miss Eline Childs, Harry Dunnigan, Charles Gasagne, Juan Murrieta, Andres Glasell, Adele Kraek, Brunswig Drug Company, William Jennings Bryan, Charles and Leona Bryan, Los Angeles Gas and Electric Company, the Los Angeles Railway Company, the Western Investment Company, the Wells Fargo Express Company, Bethel Temple, a religious organization, 112 John Doe, fifty Jane Doe and thirty-five John Doe Companies, as corporations.

The Tally-Ho Garage plot is owned by Mrs. Fannie V. Gage, widow of Henry T. Gage, who is named as one of the defendants. The other defendants are T. N. Camfield, Lucile Rand, Edridge Dexter Rand, Cal F. Hunter, B. A. Hunter, A. L. Drew, Albert F. Watson, ten John Doe, and five John Doe Corporations.

COLORADOANS TO DANCE

Former residents of Colorado are invited to attend the monthly reunion of the Colorado Society to-morrow evening at Moose Hall, 1024 South Grand avenue. President John Sullivan will present a varied program, to be followed by dancing.

RESIDENCE CHEST CHIEF APPOINTED

Mrs. Albert Crutcher to Head Those Divisions for Forthcoming Campaign

Mrs. Albert Crutcher, president of the Children's Hospital, yesterday took over the chairmanship of the residential district division of the Community Chest campaign drive.

Last year there were approximately 9000 volunteer workers in the residential district divisions who obtained about \$291,000 from 48,000 subscribers.

In 1928, the Community Chest gave important aid to 175,000 cases; in 1929 this number was increased to 275,000 cases, said Mrs. Crutcher.

"This has been made possible by confidence and money. But we cannot stop now; our city is growing rapidly; it is inevitable that with its growth comes increased responsibilities to our fellow men."

Mrs. Crutcher already has begun the work of organization by appointing four prominent women to serve as vice-chairmen of separate divisions. They are Mrs. E. Avery McCarty, Mrs. Benjamin B. Blodgett, Mrs. Florine Wolfstein and Mrs. Frank R. Schaefer, who will head districts A, B, C, and D, respectively.

Following is the complete list of committees appointed to date in the various districts: District A: Division No. 14, Mrs. C. O. Brownlee; Division No. 15, Mrs. Louis A. Klinger; Division 17, Mrs. C. L. Whipple; Division 18, Mrs. T. H. Dugan.

District B: Division 21, Mrs. A. W. Mack; Division 24, Mrs. Joseph Kline; Division 25, J. D. Farmer; Division 41, Louis H. Hamilton; Division 42, D. E. McVicar.

District C: Division 9, Mrs. Leora P. Elvrum; Division 11, A. H. Marshall; Division 12, Mrs. E. E. Ward; Division 13, Michael Curran; Division 16, Mrs. C. J. Marston; Division No. 21, Mrs. A. Vandergriit; Division 22, Mrs. J. L. Thornton; Division 23, Mrs. Edie Imhoff.

District D: Division 3, Mrs. Leora P. Elvrum; Division 11, A. H. Marshall; Division 12, Mrs. E. E. Ward; Division 13, Michael Curran; Division 16, Mrs. C. J. Marston; Division No. 21, Mrs. A. Vandergriit; Division 22, Mrs. J. L. Thornton; Division 23, Mrs. Edie Imhoff.

BUS WILL RUN TO UNIVERSITY

(Continued from First Page)

terminates on the granting by the Railroad Commission of a certificate for the permanent service.

ANOTHER SERVICE

The board also approved the application of the company for a bus service from Serrano to Van Nuys by way of the university, in order to accommodate students in the valley, as requested by the Van Nuys Chamber of Commerce.

The proposed route begins at Santa Monica and Sawtelle boulevards, along Santa Monica Boulevard, Westwood avenue to Leeward, Westwood avenue to Leeward, then to Hillside avenue, passing the university entrance on Beverly Boulevard, thence to Beverly Glen, to Van Nuys Boulevard and the Van Nuys business section near Gilmore street.

OHIO SOCIETY WILL MEET

Social gatherings of the Ohio State Society will be resumed next Tuesday evening at 1137 South Hope street, President Harry B. George announced yesterday. Dancing will follow a program of entertainment.

CHILD SLAYER CALLED INSANE

Experts Testify at Second Trial of Mrs. Valenti

Case Nearing Jury's Hands, Proceedings Indicate

Woman Convicted Recently of Burning Own Baby

Expert testimony on the question of the sanity of Mrs. Josephine Valenti, 28-year-old wife convicted last week of burning her 6-month-old baby to death, occupied the attention of a jury yesterday in the Superior Court of Los Angeles.

The defense opened yesterday with the testimony of Dr. Cecil Raymond, assistant of this city, who asserted that Mrs. Valenti is insane and a "low-grade imbecile."

The defense opened yesterday with the testimony of Dr. Cecil Raymond, assistant of this city, who asserted that Mrs. Valenti is insane and a "low-grade imbecile."

CHILD SLAYER CALLED INSANE

Expert Testimony at Second
Trial of Mrs. Valenti

One Having Jury's Hands,
Proceedings Indicate

From Convicted Recently
of Burning Own Baby

Expert testimony on the question of the sanity of Mrs. Josephine Valenti, 30-year-old wife convicted last week of burning her 6-month-old baby to death, occupied the attention of a jury yesterday in the trial of Mrs. Valenti in the superior court, where she was charged with the murder of her child.

The defense opened yesterday with the testimony of Dr. Cecil Reynolds, who testified that Mrs. Valenti is insane. Mrs. Valenti is charged with the murder of her child, who was found dead in a rooming house in San Francisco, where she was living at the time of the crime.

The defense also presented the testimony of Dr. Reynolds, who testified that Mrs. Valenti is insane. The prosecution, however, presented the testimony of Dr. Reynolds, who testified that Mrs. Valenti is sane.

The jury is expected to return its verdict today.

HIT-AND-RUN GUILT FIXED

David M. Jones, prominent Pullerton rancher, was convicted of failure to stop and render aid following an automobile accident, a felony, by a jury in Superior Judge Wilson's court yesterday.

Judge Wilson fixed Monday at 10 a.m. as the time of sentence. Jones was charged with running

down Lewis McIntyre at Eleventh avenue and West Adams street on June 30 last. Two witnesses to the accident testified that they pursued the rancher for eighteen blocks before capturing him.

The case was prosecuted by William McKay, deputy district attorney, while Warren Williams acted as counsel for the defendant.

he believes Mrs. Valenti to possess a "very low-grade mentality."

Mrs. Valenti, called in her own defense, testified that two months after her son was born she underwent an operation which caused her to suffer dizzy spells and do things for which she later could not account. She told of attacking her husband without reason on a number of occasions and declared she forgot all about the attack until he reminded her later of her conduct. Her husband, Sebastian Valenti, corroborated her testimony.

Dr. Thomas J. Christen and Paul R. Brown, alienists called for the State by Dep. Dist. Atty. Penney and Dennison, expressed the opinion that the reactions of Mrs. Valenti are those of a sane person.

Judge McComb was prepared to give the case to the jury late yesterday, providing attorneys were able to complete their arguments in due time.

Mrs. Valenti, who is represented by Attorney William Christensen and William C. Cren, was convicted of having set fire to her baby's

Council Acts on Street Projects

The City Council yesterday denied protests against the improvement of Dailon avenue between Thirty-seventh and Ninety-second streets, confirmed the assessments for the improvement of Tourmaline street at Huntington Drive, north, and the severing of Sanborn avenue. Consideration of the reassignment of the opening and widening of Finner street between Washington and Eleventh streets was continued until December 4, next. The widening of Robertson boulevard between Fico boulevard and Eleventh street was abandoned, but instructions issued for a ten-foot setback line, it being the intention to bring up the widening at a later date.

Legal Question Postpones Case of 'Bad Babies'

Arraignment of nine members of the cast of "Bad Babies," raided by police on August 28, last, on charges of participating in an immoral play, was halted yesterday when W. J. Clark, defense attorney, interposed a demurrer to the new complaint. Clark asserts that the court has no jurisdiction in the case and that the ordinance under which it was filed is unconstitutional. When Chief Deputy City Prosecutor McGinnis asked for time to answer the demurrer, Municipal Judge Bullock continued the case until tomorrow. If the demurrer is overruled, Clark indicated that he will ask jury trial for his clients, who are Johnny Baleston, Annette Westbay, Elmer Flynn, Arthur Rankin, Herman Peck, Mervin Williams, Darle Shindell, Charles Bruins and Frank Jennings.

SMUGGLED DIAMONDS TO BE SOLD TODAY

United States Marshal Stitt today will sell at public auction six packages of diamonds. The sale will take place at the Marshal's office in the Federal Building at 10 a.m. The diamonds were smuggled into the country, it was announced.

Espee Receives Fare Due for Thirty Years

Thirty years ago a comparatively young man with his wife and daughter were confronted with the necessity of journeying from Portland, Ore., to Redding, Cal. The trip simply had to be made or the little family, already in straitened circumstances, would find themselves destitute. At Redding was a job for the father and the chance for future prosperity.

There was scarcely enough money for two fares. The daughter was just three days over 13 years of age when the journey started, so when the conductor came along for tickets, the mother prevailed upon and paid but half fare.

Yesterday a man walked up to the window of the Southern Pacific's Pasadena ticket office and took from a wallet three \$5 bills. "No, I don't want a ticket," he told the agent. "I want to right a wrong done this company thirty years ago. I hope you will take this \$15 and then forget all about what I am going to tell you." He described the incident of the trip. The agent accepted the money, placed it in the Southern Pacific fund, which now amounts to many thousands of dollars, and thanked the old man, who walked away with a smile.

BOBBY JONES SUFFERS DEFEAT AT HANDS OF JOHNNY GOODMAN

GOODMAN MAKES GOOD ON BOAST HE'D BEAT JONES

Former Los Angeles Country Club Caddy Puts Champion Out of Tourney, Refusing to Crack

BY PAUL LOWRY
Sports Editor, "The Times"

DEL MONTE, Sept. 4.—The horrible prediction made yesterday by the pessimistic Robert Tyre Jones, Jr., stood on the brink of becoming a stark, appalling reality shortly before lunch today when an unheralded and unsung ex-caddy rammed home a victory to beat the king of the golfers in the first round of the national amateur golf title.

It was a man stripping of 20 years. So much that last night he was the world's greatest; today the boast, to friends he would defeat the great Jones.

Nobody paid much attention to that boast—at the time. But today it is recalled.

And today it stands out as vividly as the navy play of Goodman over the last five holes of the match when the Omaha boy, who caddied at the Los Angeles Country Club four years ago, failed to crack under the strain after Mr. Robert Tyre Jones, Jr., by remarkable play, had whittled the ultimate victor's margin of victory from 3 up to nothing.

But when the time for cracking came, it was not Johnny Goodman, the ex-caddy, who blew. It was Mr. Robert Tyre Jones, Jr., the world's greatest.

And he did it on the fourteenth, a 585-yard hole which saw the champion play two beautiful shots.

(Continued on Page 16, Column 7)

HE BEAT CHAP WHO TRIMMED CHAMP

Left photo shows William Lawson Little, Jr., of San Francisco. On the right is Johnny Goodman, who surprised everybody by upsetting the great Bobby Jones at Pebble Beach yesterday morning. In the afternoon Goodman, who hails from Nebraska, was himself upset by Little. There were plenty of surprises yesterday, but none more startling than the defeat of Jones by Goodman.

CONQUEROR OF CHAMPION IS HIMSELF ELIMINATED

Nebraska Youth Scores 1 Up Win Over Title-holder But Bows to Little in Second Match

BY ALAN J. GOULD
Associated Press Sports Editor

PEBBLE BEACH, Sept. 4. (AP)—Pebble Beach today proved the Waterloo for the Napoleon of golf—Bobby Jones.

Coming to the Far West to conquer for the first time, the world's foremost shotmaker and four-time holder of the title was eliminated today in the first round of the national amateur championship by a 20-year-old Nebraska youth, Johnny Goodman.

In one of the most sensational upsets the tournament has ever known, Goodman outplayed Jones by a narrow margin of one up in a match that went the full eighteen holes and was not decided until the final putt.

Goodman's path of glory was brief. He was eliminated himself in the second round by an 18-year-old San Franciscoan, William Lawson Little, Jr., 3 and 1, but the Nebraska was the main shock producer for the day.

If an earthquake had suddenly rocked the Monterey Peninsula, the shock could hardly have been any greater for either the experts or to some 5000 Californians who had come out to see the conqueror do his heralded stuff for the first time. So keenly did the gallery apparently feel the unexpected downfall of

(Continued on Page 16, Column 7)

GOLFERS URGE SWITCH TO 36-HOLE MATCHES

BY "Times" Representative

PEBBLE BEACH, Sept. 4. (AP)—The defeat in eighteen holes today of Bobby Jones by Johnny Goodman, the ex-caddy, has caused the national amateur golf association to consider switching to 36-hole matches.

The national amateur championship is finally decided over the thirty-six-hole match and this decision may cause the present organization to ban all short-round championship matches in the future.

(Continued on Page 16, Column 3)

HOLLYWOOD WINS OVER OAKLAND, SCORE 6-4

OAKLAND, Sept. 4.—The Hollywood Stars made it two straight wins over the Oaks at Emeryville today when they took advantage of an error by Johnny Vesper to open the ninth inning and then piled up three runs. The final score was 6 to 4, the Oaks making three in their half of the ninth inning on four singles and some erratic hitting by Dudley Lee, who made two errors.

The three runs for the Stars in the ninth were charged against Charlie Jeffcoat, who made his first appearance in the mound for the Oaks in more than two months. He had kept him on the bench. But for the error of Vesper, probably would have gone through the ninth inning without a score against him.

The defeat was charged to Lou McEvoy, the young Oakland pitcher who has been sold to the New York Yankees. As Scout Bill Ewack of the Yankees looked on, McEvoy engaged in a beautiful eight-inning game.

(Continued on Page 11, Column 6)

ANGELS CAPTURE OPENER

Makeshift Seattle Outfit Bows to Seraph Crew by 9-to-4 Score at Wrigley Field

BY BOB RAY

After staggering along scorelessly for five innings, the attack of Jack Leffelt's ambitious Angels broke forth in a couple of vicious bursts to scalp a makeshift band of Seattle Indians, 9 to 4, in yesterday's uncertain series opener at Wrigley Field.

The uncertain part of the pre-game double-header. The rest of the Indians will be in today and the bargain bill will be put on for the fans this afternoon.

The Indians who didn't arrive today attempted to catch the fast train from Portland by taking high-powered motor cars from Seattle at the conclusion of their second game with the Seals Monday. But the heavy Labor Day traffic and a late Seals rally combined against the Tribesmen and they arrived in Portland just fifteen minutes after the fast train had departed.

In order to tow a team on the field, Ernie Johnson played himself and the only other regular on the

LEWIS BEATS STECHER; SONNENBERG NEXT FOE

Ed "Strangler" Lewis, former world champion wrestler, won the right to a match with Gus Sonnenberg, the present title-holder, two weeks hence, by defeating Joe Stecher of Nebraska, two out of three falls in the main attraction of Lou Daro's mat show at the Olympic last night.

Lewis took the first fall after twenty-three minutes and thirty-four seconds of spirited milling. The Strangler had Stecher's scissors completely foiled. Big Ed cradled his body when Joe started his strong-leg act and the Nebraska effort was to no avail. After they

GALA EVENT ON TONIGHT AT MAYAN

World Premiere of New M.G.M. Film to Attract Many Celebrities

With Hollywood stars turning out en masse amid a glittering panoply of blazing lights, the world premiere of Metro-Goldwyn-Mayer's newest talking, singing and dancing picture "Marianne," starring Marion Davies, will be celebrated tonight at the Mayan Theater. This theater, having turned talkie, will inaugurate its new regime with a spectacle which will bring down the curtain on the glamour first night, which hitherto have been Hollywood's own.

Gertrude O. Davis of the Mayan and the Metro-Goldwyn-Mayer executives have combined in arranging an event which will go down into screen history, it is said. "Hill Street, from Tenth to Eleventh, will be roped off by the police and transformed into a blaze of brilliance by the entire M.G.M. studio equipment of sun arcs.

"Marianne" is a complete screen musical comedy with many song hits. The supporting cast includes Lawrence Gray, Cliff (Ukulele) Edwards, Benny Rubin, Robert Eason, George Barker, George K. Stone and many others. There will be a Laurel and Hardy comedy, "Perfect Day," and an M.G.M. colorized revue, "The Doll Shop," featuring the popular "The Doll Shop" quartet, and his orchestra will furnish the musical portion of the program.

Jack Benny to Headline New Orpheum Bill

Jack Benny, the "Cinematographer of Ceremonies," is coming back to the Orpheum Saturday. This gentleman will be the headline attraction at the RKO-Orpheum after a sojourn at the M.G.M. studio, recording whose permission the local vaudeville booking was arranged.

Originally Benny started out to do a vaudeville monologue, but vaudeville soon found that his irreverent humor was too inclusive to confine him to the time allotted to the average act, and so he became the premier master of ceremonies of the RKO circuit.

In addition to Benny, the Orpheum will also feature Albert Carroll, star of the Grand Street Palace in New York, in his one-man revue, "Stars of 1928." Frank De Voe, whose voice has earned him the billing of "The Tidal Wave of Laughs," will also be featured on the bill with James Stanger at the piano. Other feature acts include the Mann Brothers Orchestra, Stanley Owen and Howie, and Eugene and Lelan.

Actor Prefers Histrionics to Violin Playing

For many years, the name of Leopold Auer has been associated with the teaching of the violin virtuoso. Such illustrious concert artists as Jascha Heifetz, Efrem Zimbalist and Fritz Kreisler received their training from this celebrated teacher, but a grandson, Mischa Auer, prefers the art of histrionics to the bow and string.

Auer who enacts the role of young Livingston in the play, "Kibitzer," now at the Mayan Theater, early in life showed a distinct preference for acting. His skill as a pantomimist obtained for him many excellent parts in the movies, and he has been seen with great success in several of the Adolph Menjou pictures.

In "Kibitzer" he is called upon to enact a difficult role. There is a touch of menace in the character of young Livingston, but withal he must remain more or less sympathetic to his audience.

Chinese Secures Special Talent for Late Show

The management of Grauman's Chinese Theater has been securing a special surprise array of stellar talent, to be announced tomorrow. This program, it is claimed, will be the finest one yet presented at any of the late matinees, which are a feature of the Grauman Chinese Theater every Saturday.

This extra program will be presented in addition to the showing of Metro-Goldwyn-Mayer's "The Lady Lies," featuring Rudy Vallee and his Connecticut Yankees.

Dario Shindell in Many Plays

Dario Shindell, who plays the part of Jan in "Bad Babies," now showing at the Figueroa Playhouse, previously appeared for an entire year on Broadway in "Appearances" and "The Monkey Business." Before this he had parts with Elsie Ferguson in "The Grand Duchess" and others.

In October Shindell will again appear in New York City with Elsie Ferguson in a new drama entitled "She Had to Come Back," written by Shindell's uncle, Sir Sidney Arundell, who is now domiciled in Hollywood.

Mervin Williams and Jobyna Ralston also essay featured roles in "Bad Babies."

SEA STORY AT ALHAMBRA

Cortne Griffith in "The Divine Lady," said to be one of the outstanding screen triumphs of the year, is now playing at the Alhambra. The supporting cast in this romance of sea battles, gripping adventures and pleasurable sequences includes H. B. Warner, Victor Varconi, Dorothy Cummings, Marie Dressler and others. "Off in a Bully Night," new Christie talking comedy by Octavus Roy Cohen, also is on the new bill at the Alhambra.

'Cradle Snatchers' Now on Screen

Dot Farley Appears as one of the neglected wives in "Imagine My Embarrassment," starting today at Lee's State.

INNOVATIONS PLANNED

Wednesday night will be an eventful one for many persons. It plans of the management of the new R.K.O. Theater, materialized, for on the arrival of the host of stars who will be present, but also a panoramic scene of the entire audience.

Plans for this novel affair, which will serve to record for all time the premiere opening of the rechristened showhouse, includes not only the arrival of the host of stars who will be present, but also a panoramic scene of the entire audience.

Favorites Sing as Feature of "In Headlines"

Some talking picture stars have found only their speaking voices, others have found singing voices and the result is that from time to time, the talking-picture fan is surprised to see and hear one of his favorite stars burst forth into song.

In "In Headlines," now appearing at Warner Brothers Theater, Grant Withers and Marion Nixon are the latest addition to the ranks of the singers of the screen. In this Warner Brothers Vitaphone picture, the two stars, who have the leading roles, sing the theme song, "Love Will Find a Way."

Actresses Will Visit Criterion to See 'Melody'

Bessie Love and Anita Page, two of the featured players in Metro-Goldwyn-Mayer's Broadway Melody, will be among the members of the audience at the Criterion Theater when the film starts its popular engagement Wednesday.

Miss Love and Miss Page, who appear as the sister act in the musical production, will attend the first evening performance, besides many other celebrities. Plans for the appearance of the two distinctive stars were completed yesterday afternoon. Charles King, third featured player of the cast, will not be able to present.

"The Broadway Melody" was directed by Harry Beaumont and the musical numbers were composed by Mabel Herz Brown and Arthur Freed.

Stage Actress Takes Part in Many Pictures

Charlotte Greenwood, appearing as guest star with the Henry Duffy Players at El Capitan in "The Couldn't Say of the Film," while the noted comedienne was starring in "So Long Letty," she appeared in a screen version of the favorite old farce.

Then, two years ago, she was featured in the film adaptation of Margaret Mayo's farce, "Baby Mine." One of the traditions of the picture studio is the story of Miss Greenwood's arrival there, saying an old Ford she immediately jumped into it and drove round to every stage on a tour of inspection.

The comedienne has just completed the talking picture version of her successful musical show, "So Long Letty," for Warner Brothers.

NEW REVUE OFFERED AT MILLION DOLLAR

"Rose Garden Revue," colorful canvas of crime and cavaliers, is the new stage show at the Million Dollar today as a prologue to "River of Romance," Buddy Rogers' all-talking starring vehicle of life along the Mississippi during the days of 1840. Simon M. Lazarus, managing director, has assembled a brilliant cast for this revue, featuring Bud Averill, Jack Kay, Black-face comic; Dolly Price, ballet dancer; Fowler and Faraday, banjo strummers; and Bill Brokaw's, Orchestra.

The Million Dollar show girls will appear in an old-fashioned crinoline number, a rhapsodic dance suggested by Mark Twain's "Huckleberry Finn," and the "Hoot'nanny," eccentric routine.

James Bush to Essay Leading Role in Drama

James Bush, the actor of juvenile roles, who recently gave such an excellent account of himself in "The Big Pond" at the Hollywood Playhouse, is coming back to that theater to portray Jack, the nephews, in "The Rejuvenation of Aunt Mary." Bush will have the leading male role in the comedy in which May Robson will appear as guest star with the Henry Duffy Players, starting Sunday.

Bush will play the role of the nephew whom Aunt Mary adores, but whom she refuses to see on account of a breach of promise case in which he figures with the girl from Kalamazoo. The balance of the cast, which is now in rehearsal under the direction of Edwin H. Curtis, includes Emily Lewry, Lillian Harner, Kenneth Gamet, Fred Townbridge, Frances Branger, William Macaulay, Myra Huber and Elizabeth Hixson.

Guy Baine Post is now in the final week of "The Masquerader" at the Playhouse.

NEW SHOW ANNOUNCED BY ARTISTS

"Dance of Life" Follows Current Run of "Bulldog Drummond"

"The Dance of Life," from the stage play "Burlesque," has been secured by the United Artists Theater as the attraction to follow the current showing of "Bulldog Drummond," according to word received from the booking office yesterday.

"The Dance of Life" is advertised nationally by its producers as "Paramount's supreme triumph." It has been produced on a large scale, and is being road-showed in other key cities of the country. The production includes hundreds of dancing girls and models, elaborate sets, many of them in technicolor, five new specially written songs including "True Blue Lou," and more than a hundred different locations. John Cromwell and Edward Sutherland, Paramount's ace directorial team, collaborated in directing the production.

Hal Skelly, Broadway stage star of the original production of "Burlesque," has his original role as "Dad" in the picture. Nancy Carroll, one of the most successful of female stars who have been heard in talking pictures, plays opposite Skelly as Betty.

George Manker Winters, co-author of the play with Arthur Hopkins, supervised the dialogue of the picture. Ronald Colman's first talking picture, "Bulldog Drummond," will continue at the United Artists until plans are completed for the opening of the new Paramount film.

Brown Selects Versatile Cast for New Film

Fortifying himself with a cast of his own selection, Mel Brown has started directing his debut production for R.K.O. This all-dialogue opus is tentatively titled "Jazz Heaven," from the sketch by Pauline Forney and Dudley Murphy.

Having but recently completed the direction of Richard Dix for Paramount in an all-dialogue production called "The Love Doctor," which is said to be the best picture in which this popular star has appeared to date, Brown carefully scrutinized the list of available players.

Through arrangements with Metro-Goldwyn-Mayer, John Mack Brown was secured for the male lead, with this stellar actor as the pivot. Brown then signed Sally O'Neil for the featured feminine role, Clyde Cook for the comedy interest and Joe Carithers, Kenneth MacKenna and Albert Conti as the supporting players. When this assignment is completed, it is reported that Brown will return to the Paramount fold to become a permanent member of their directorial staff.

Society Comedy Makes Debut at Fox Boulevard

A smart, sparkling drama of the smart set with its intrigues and fashionable fashions is "Pleasure Crased," which starts today at the Boulevard Theater. This all-star cast includes Dorothy Burgess, Marguerite Churchill, Kenneth MacKenna, Henry Kolher and Douglas Gillmore.

This is Miss Burgess' first talking picture since "In Old Arizona," and in decided contrast to her first role, she dons a blond wig and appears as the cooing temptress.

Marguerite Churchill will be remembered for her part as the sister in "The Valiant," while this is the first screen appearance of Kenneth MacKenna. He comes direct from the New York stage. "Pleasure Crased" was made entirely in Southern California with San Diego, Montecito and Beverly Hills as the background. Charles Chase in his latest all-talking comedy, and Lynn Corvan with his Boulevard band and girls in "Hi-Life Revue" round out the bill.

Belasco Books Noted Players in New Drama

What is said to be one of the most important theatrical events of the season will take place when "The Door Between," a comedy by Vincent Lawrence starts at the Belasco Theater Sunday, with Edna Riebard in the exciting role of Ethel Brooks.

Miss Riebard recently scored in the John Golden production, "Let Us Be Gay," and has signed for "The Door Between" is said to be in the nature of a reward for her drawing powers in the recent comedy success. Kenneth Thompson, noted leading man of stage and screen, will share honors with another favorite of talking pictures and stage, Richard Tucker.

Thompson is best remembered for his appearances as leading man for Ruth Chatterton and for his portrayal in "The Rivals." "The Bad Man" and others. Richard Tucker was leading man for Mary Beland in "Meet the Wife," star of "White Cargo" and leading man for Marjorie Rambeau.

RICKETTS IS STAR-GAZER

Tom Ricketts, veteran of hundreds of motion pictures, has taken up star-gazing. It is not a pastime, but a serious business, required by his latest screen role. Ricketts has been cast as the court astrologer in Paramount's all-color talking and singing romance, "The Vagabond King." The part will require him to interpret the heavenly signs for King Louis XI of France, who will be resurrected for the screen by O. P. Heggie.

STAGE ACTOR BEFORE "MIKE"

Another veteran stage actor has braved the motion picture microphone for the first time. This time it is H. Reeves-Smith, who has been cast for the role of Dr. Watson in the audacious picturization of "The Return of Sherlock Holmes," now being filmed at the Paramount Long Island studio.

**TO GATHER
HERE TODAY**

**United Brethren in Christ
Will Hold Annual
of Pacific Division**

More than eighty delegates will assemble in the city today for the annual conference of the Pacific Division of the United Brethren in Christ.

California. The conclave will be presided over by Bishop Ire D. Wilson as head of the Pacific division, comprising California, Oregon, Washington, Idaho and Alaska. He will preside throughout the conclave. In addition to the election of a new president, the conclave will elect a new permanent secretary to succeed the late Rev. T. W. Ringland, who died last year and the secretary will be elected by the numerous delegates. The meetings will be held in the afternoon and evening sessions in the grand ballroom of the Hotel California.

Bishop Warner, after a brief stay at the Pine Islands, and other places, will leave for a general conference in London last May, is one of the men ever elevated to the episcopate. He is only 43 years of age. He graduated from Otterbein University, Westerville, O., in 1911, and his seminary work at the General Theological Training School, New York City, was completed. He has held pastorates in Canton, Dayton, Canton and Akron, Ohio, and has preached more than 1200 missions. He is a member of the church, "St. James," in Akron, Ohio.

**AIR RACES
PICTURED IN
NEWS REEL**

Patrons of seventy Boston
 Angeles and friends at Los Angeles
 were thrilled this week by the
 Universal Newsreel which showed
 the air stunts of Lindbergh
 Cleveland and the race of the
 Zeppelin across the continent
 the time it left Los Angeles.
 Among other news items
 is the great mass meeting at
 Union Square, Garden City
 against the members of the
 Palestine Women's society
 interested in the Jewish

Those who have seen it will declare the stunt crowd is the best and air race, particularly army flyers and Col. James, the best they ever saw. Those who saw the start of the race will remember the excitement.

AIR OFFICIALS TO MEET
J. T. Whitley, traffic manager of the Standard Airline, is expected this week to attend the International Air Traffic Conference, Aeronautical Chamber of Commerce, at Kansas City. He will be one of the representatives from the eastern and middle states to study air-traffic problems. Whitley is expected to

Pass on the 20th inst.
 time he will officiate at
 the wedding of the new
 of the Standard Oil Co.
 MISSOURIANS TO
 Former residents of
 will hold a picnic at
 Grove Park Sunday.
